PRINTED BY JOHN MURPHY & CO.
182 BALTIMORE STREET.
1883.

NOTICE.

In again presenting my Spring Catalogue, I do so with much pleasure, having added largely by importation of everything new and valuable among the various classes.

I especially offer to the notice of my patrons many extremely rare and beautiful plants, suitable for the hot-house and green-house, as well as for bedding out.

The description of the new plants are those of the parties who sent them out.

When selections are left to me, the very finest varieties will be sent, and the most vigorous plants.

After over thirty years' experience in packing and forwarding plants to distant countries, I flatter myself I can pack both economically and safely for any distance.

No charge is made for boxes or packing.

Single plants, bulbs, &c., will be mailed free; but when ordered by the dozen or hundred, the single price or a sufficient amount must be remitted to cover postage. On their reception they should be potted and placed in a frame or green-house to recover the effects of the journey. To Florists and Nurserymen who wish new plants, the mail offers the greatest facility for obtaining such, as they know how to care for them on their arrival. Amateurs who have no means of caring for plants after a journey through the mail, as well as all persons requiring a considerable quantity of plants of a larger size, had better have their orders by express. If left to me, I will forward in such way as I deem best for the purchaser.

In all orders by express, good plants are added in proportion to the value of the order or distance. Persons getting up clubs will be liberally rewarded with choice plants in proportion to the amount remitted.

The prices at which some of the new plants are offered, may appear high to persons unacquainted with the importation of these articles. For such I have to pay high prices in Europe, adding duty, freight, risks, &c., to justify which when first offered, the price should be proportionate—though I make it at the lowest possible rates, and as stock increases the price is reduced. Older and standard varieties are offered at my usual very moderate rates.

Orders intended for mailing should be accompanied with a remittance, but in express orders the purchaser may remit, or the article will be forwarded C. O. D. at his option.

In making out orders, keep plants and seeds separate—it saves us much time at our busy season.

Write your name plainly; give post-office, county and State, whenever you write, no matter how frequently.

In all letters of inquiry, it is well to leave a blank space between each question for an answer, this facilitates a reply in the busy season, when my correspondence is very heavy.

Please use the order sheet, or in a list apart from the body of the letter. This much facilitates business and prevents errors. In making out orders please affix prices, that I may know the size of plants required.

Customers who fail to receive a catalogue in due time, will please inform me of the same, that a copy may be sent, as catalogues are frequently lost in the mails.

I charge for plate with catalogue to applicants who have not previously purchased, but when, however, orders are subsequently sent, the price of the catalogue will be allowed.

This catalogue annuls prices in all former issues.

JOHN SAUL.

February, 1883.

CATALOGUE

—OF—

NEW, RARE AND BEAUTIFUL PLANTS.

New, Rare and Beautiful Plants.

NEW ROSE.—See Colored Plate.

*A. K. WILLIAMS.

This beautiful rose has been out a few years, has been well tested, and proved to be one of the finest Hybrid Perpetuals in cultivation. "Color carmine red changing to magenta, large, full and imbricated; a free autumnal bloomer, one of the finest." 50 cts.

*ETOILE DE LYON.—*New Tea Rose.*

"A striking clear bright sulphur yellow, deeper in the centre, very large, full and very fine form, growth very vigorous; one of the best yellow roses ever raised." 50 cts.

For other New Roses see Cat. 5.

*BELLE DE JOUR, (LEM.)—*New Pelargonium.*

This beautiful Pelargonium has flowers of the purest white, semi-double, produced on stiff erect stems most profusely, fine habit. A grand plant. $1.00.

*WHIGS ET TORIES, (LEM.)—*New Pelargonium.*

"Brilliant carmine blotched with maroon, centre white, trusses immense, free vigorous habit and free bloomer. An attractive and beautiful flower." $1.00.

*PETRARQUE ET LAURE, (LEM.)—*New Pelargonium.*

"Color lilac mauve beautifully veined, white centre, upper petals marked with maroon; large, beautifully formed; trusses freely produced. Very distinct and fine." $1.00.

*JULES JACQUEMART, (LEM.)—*New Pelargonium.*

Truss enormous, with large finely formed flowers, color a lovely bright vermilion, with a delicate centre; petals nicely undulated, and profuse bloomer. $1.00.

*GUELFES ET GIBELENS, (LEM.)—*New Pelargonivm.*

"A grand flower, giving magnificent trusses very profusely, color white striped with satiny lilac, centre white; a very lovely flower." $1.00.

*ZENITH, (LEM.)—*New Pelargonium.*

"Beautiful Carmine rose; veined with purple, light centre, finely formed and striking flower, with large trusses, produced in great profusion, vigorous fine habit, extra." $1.00.

*MAD. BOUCHARLET, (LEM.)—*New Pelargonium.*

"A superb flower, semi-double, giving 12 to 15 petals, color purple and white, fine trusses, excellent habit; this is a very showy and grand Pelargonium, will be largely grown". $1.00.

*UKRIAN.— *New Pelargonium.*

"Upper petals bright crimson, blotched with maroon and edged with white; under petals deep rose edged with white; white centre, shaded with violet, the petals slightly fringed; a very free and pretty variety." $1.00.

*VENUS DE MILO.— *New Pelargonium.*

This variety produces immense trusses of fine large white flowers, slightly striped in the centre with delicate rose; lovely. $1.00.

*TRIBOULET.— *New Pelargonium.*

"Flowers striped, rose white and crimson, quite a bizarre, fine trusses and free, a very showy flower; will be a general favorite. $1.00.

*ROI ARTHUR, (LEM.)—*New Pelargonium.*

"Petals white, bordered with carmine, and lined with purple—fine truss, good habit and free—a very beautiful flower." $1.00.

*OUIDA, (LEM.)—*New Pelargonium.*

A beautiful formed flower with undulated petals; white, lightly striped with violet in the centre—very chaste and lovely. 75 cents.

*PROF. NORDENSKIOLD.—*New Pelargonium.*

Color lilac mauve, large white centre shaded with lilac; a fine flower with immense trusses. 75 cents.

*JEANNE D'ARC, (LEM.)—*New Pelargonium.*

A lovely white flower, semi-double, fine large trusses, excellent habit; a chaste and lovely flower. This flower will be largely grown. 75 cents.

*MISS MARY C. SAUL, (SAUL.)—*New Pelargonium.*

This beautiful new flower originated in our establishment. It is compact, good habit, very free flowering, trusses large and finely formed; color deep rich crimson, dark blotch, smooth edge, a lovely flower. This is a strikingly rich and beautiful variety; from its fine habit, profuse blooming qualities, rich, distinct color, places it as one of the finest market plants possible. 75 cents.

*MISS ROSINA M. SAUL, (SAUL.)—*New Pelargonium.*

Another of our beautiful new Pelargoniums, of excellent compact habit, free growth and profuse bloomer, fine trusses—color upper petals crimson, with dark blotch, lower petals light crimson; centre white, all beautifully reticulated with crimson, slightly frilled. 75 cents.

NEW DOUBLE GERANIUMS.

	Each.
*Colonel Flatters. Grand umbels of fine flowers, color a bright safrano, having the upper petals shaded with orange. Very distinct	$0 50
*Etendard. Large truss of bright amaranth; beautiful and very striking	0 50

habit close and free in growth" 0 50

Jas. Y. Markland. "Flowers of most perfect shape, bright peach rose centre, broadly margined with white, large finely formed truss, compact habit." 0 50

James Vick. "Flowers and trusses of great size, color deep flesh with dark bronze shadings, fine free habit and entirely distinct." 0 50

Longfellow. "Flowers very large of most perfect shape, deep soft crimson slightly shaded with purple rose, compact habit and unequalled in color." 0 50

Maggie Hallock. "Quite new in color, a deep pure pink shaded rose, with reflex of petals silvery white, flowers of good shape, free flowering and quite distinct. A lovely variety" 0 50

Peach Blossom. "Ground color white, shaded and marbled with light and dark peach-pink, trusses of good size, fine habit." 0 50

Cheerfulness. Flesh pink, shaded and mottled rose, very double; flowers and trusses large, excellent free habit. Very distinct 0 30

Pocahontas. "Immense trusses of rosy pink flowers, upper petals margined with white, a great improvement on Mad. Thibaut" 0 50

The above 29 new and beautiful varieties, the finest out, for $13.00.

NEW ZONALE AND NOSEGAY GERANIUMS.

Colonel Martin, (Lem.) "Magnificent trusses, color amaranth, upper petals shaded orange; very brilliant. This is a grand variety, with its immense large, brilliant trusses" 0 50

Dupont de l'Eure, (Lem.) Grand trusses, "color rich deep violet. This is a charming variety, so distinct and lovely in color, the habit is also excellent" 0 50

Frederick Sauvage, (Lem.) "Large and elegant trusses, color salmon bordered with rose, very distinct" 0 50

Gaston Tissandier, (Lem) "Trusses immense, finely shaped, color rich rose" 0 50

Louis Ulbach, (Lem.) Fine umbels; color yellowish orange, in the way of Guinea, a distinct and fine flower 0 50

President Garfield. "Trusses large and finely shaped, color lake-carmine bordered with deep red, upper petals marked with orange; a very beautiful, distinct and striking variety" 0 50

Edith Mary. "White ground with brilliant salmon centre, fine truss, good habit" 0 50

Bianca. Fine truss, soft rosy lake, a charming shade of color; a fine large flower, round and smooth 0 50

Calliope. "A splendid flower, large and of fine form, color a very deep rich scarlet" 0 50

Each.

Caroline. "A fine variety, producing large trusses of flowers of a rosy-magenta color, flushed with scarlet in the upper petals"..... $0 50
Fanny Catlin. "Trusses large and fine, brilliant rosy salmon, with a white eye, a beautiful variety."..... 0 50
Fanny Thorpe. "Beautiful large trusses, centre brilliant salmon rose bordered with white."..... 0 50
I've-got-it. "Beautiful large trusses, flowers finely formed, petals persistent, color purest white, the finest white."..... 0 50
Nancy Lee. "Immense trusses, color beautiful cerise with a white eye. Very showy." 0 50
Queen Mary. "Large trusses, color brilliant orange scarlet, very vigorous grower, fine."..... 0 50
West Brighton Gem. "Large trusses, color orange scarlet, excellent habit, profuse bloomer, fine bedding variety."..... 0 50
Prima Donna. "Large trusses of finely shaped pure white flowers, fine habit and free bloomer This is a very fine variety."..... 0 30
Cygnet. "Immense trusses of the purest white flowers, of free habit and a very early bloomer."..... 0 50
Jasper. "Very large trusses of deeply shaded bright orange flowers with white eye, compact habit and early bloomer."..... 0 50
May Queen. "Ground color flesh, half upper petals pure white, with margins of white on lower petals, very large truss, finely shaped, a beautiful variety."..... 0 50
Alsacien Lorrain. Grand trusses, of beautifully formed flowers, color a rich orange. A very beautiful variety..... 0 50
Atala. Fine truss, form perfect, color orange vermilion, very fine..... 0 30
Beatrix. Grand truss, form perfect, color yellowish salmon, centre white,—distinct... 0 30
La France. A splendid variety, producing immense trusses of very fine large flowers of a rich violet crimson color, with bright red marking in the upper petals..... 0 50
L'Elysee. Enormous umbels of fine shape, color a very beautiful salmon orange. One of the most beautiful varieties in cultivation..... 0 50
Progress. Very beautiful trusses, color carmine with a deep centre—very rich color... 0 50

The above 26 new and beautiful varieties, the finest out, for $11.50.

NEW REGAL PELARGONIUMS.

This name is applied to that magnificent group of Pelargoniums the flowers of which are of large size, very rich and showy; a few are double, and although the others are not really double, yet from their fullness of form and the extra number of petals, they have the appearance of being so.

Each.

Beauty of Oxton. The upper petals are of a very rich maroon, darkly blotched; under petals very dark crimson, shaded with maroon; light centre; all the petals margined with white, and beautifully fringed. Flowers large and full.....$0 50
*Duchess of Bedford. One of the most useful and charming of this highly decorative section of Pelargoniums. Its blossoms are of the purest white, prettily fringed, with a feathered spot of delicate rose in the upper petals. Its habit is dwarf and compact.. 0 50
Mrs. John Saul.—(*Colored plate in* 1878) This beautiful flower, which originated in our establishment, we consider one of the very best in cultivation. The habit is compact and very free flowering, producing large trusses of charming flowers. The color is a rich glowing vermilion, with light centre and light margin to the petals, 0 50
Dr. Masters. A splendid variety. The trusses are large and in great profusion; it is semi-double, the upper petals having large black blotches in the centre, with a narrow margin of rich crimson, the lower petals having a smaller blotch..... 0 50
Triomphe de St. Maude. One of the best high colored varieties in cultivation. The habit close and short-jointed; it is profuse of bloom, and the flowers are large and of massive substance..... 0 50
*Istmo de Suez. A flower of great effect, fiery orange with rose centre, upper petals blotched with fiery maroon surrounded with fiery orange, superb..... 0 50
Le 20 Fevrier. In the style of Prince of Pelargoniums; color brilliant orange vermilion blotched with maroon on upper petals, lower petals light color, nicely fringed, magnificent..... 0 50
*Mad. Charles Kœnig. Purest white, without a trace of color, flowers finely formed and in symmetrical trusses. This is a superb variety, which will be extensively grown wherever chaste and lovely white flowers are in demand..... 0 50
*Mad. Gustave Henri. Beautiful rosy carmine, with white centre, blotched with purple, semi-double. Fine truss and habit—a very beautiful flower..... 0 75

Each.

Madame Evard. A most distinct variety; the flowers are very full, with beautiful crispy petals of an exceedingly bright purplish crimson color, richly spotted with dark maroon $0 50

*Madame Thibaut. White, richly blotched and marbled with rose; the upper petals marked with crimson maroon; large white centre; immense trusses of very large fine flowers, with undulated petals 0 75

M. Ph. Zeller. A distinct and showy variety, producing very large and full flowers, of a rich fiery crimson color, bordered with rose and spotted with very dark blackish red 0 50

Queen Victoria. This is the handsomest variety ever offered. The flowers have peculiarly crispy petals; they are not really double, but from their fullness of form and extra number of petals have the appearance of being so. The color is a rich vermilion, all the petals broadly margined with pure white, and the upper ones blotched with maroon 0 50

Striata Elegans. This is one of the large flowered exhibition group of Pelargoniums. The flowers are a magenta rose, being flaked or barred with elegant blue mauve, the top petals have a black feather-like plume, unique in its combination of colors, 0 50

Theophrasta. A very beautiful Pelargonium, flowers double crimson, freely produced; a very desirable variety 0 50

PELARGONIUMS.—New Varieties with Fringed and Striped Petals.

*Queen of Stripes. The flowers are of good outline and substance, petals overlapping, color elegant blush white, the petals being finely striped or barred with brilliant carmine-rose, each of the upper ones being marked with crimson lines surmounted with an intense crimson blotch 0 50

Gloria Patriæ. Color purest white—nearly all white, with a few veins of crimson on upper petals; compact habit, free flowering. An exceedingly chaste and lovely flower 0 50

Crispiflora. White, with rose blotches shaded lilac and blue, and beautifully fringed, a lovely variety in the style of *Dr. André*, early and profuse bloomer, fine habit.... 0 50

Lapis Lazuli. Another of those beautiful frilled French Pelargoniums; color blush white with scarlet belted blotched, elegantly frilled like *Dr. André*, equally beautiful with the others described, neat habit, early and profuse bloomer 0 50

*Lucie Lemoine. A chaste and beautiful new flower, grand umbels of purest white flowers, perfect form and shape, fine, compact, vigorous habit. This magnificent and distinct flower will be extensively grown 0 50

Mad. Vibert. Fine black maroon blotches, bordered fiery red, the flower entirely edged with rose, vigorous grower, fine habit and free bloomer; a grand flower..... 0 50

*Marie Lemoine. A very beautiful variety, large truss and flower, color white, beautifully fringed; in the way of Empereur des Pelargoniums, but of much finer form and greater substance; *extra fine*..... 0 50

*Miss Teresa M. Saul, (Saul). In habit similar to our two preceding, and of free growth and profuse flower; beautiful trusses. Color upper petals orange vermilion, with dark blotch; lower petals lighter shade, centre white. The colors of this fine variety are exceedingly bright and distinct..... 0 50

*Mrs. Potten. This is a charming variety; habit good and compact, trusses large, finely formed; color purest white, with very dark blotches. Received a first-class certificate from the Royal Horticultural Society of London..... 0 50

Prince of Pelargoniums. This most beautiful variety resembles in its style the well-known *Dr. André*, by its elegantly fringed margin and equally large flowers, but exceeds it in effect in being a brilliant vermilion scarlet ground finely relieved by a blush white centre with violet veins, and flushed with rich crimson on the upper flower lobes 0 40

*Plutus. Very fine free habit, trusses enormous, color a violet rose, heavily blotched on all petals; beautiful form. A showy flower..... 0 50

Princess of Wales. Very handsome, with elegant frilled petal margins, in the style of *Dr. André*, flower trusses large size, ground color pure blush, each petal alike marked with a rich dark velvet crimson scarlet margined blotch. This is unquestionably one of the most beautiful flowers ever raised..... 0 40

Star of the East. Very fine, resembling the *Princess of Wales;* it is equally free and compact in growth, but with larger flowers, of pure white ground. The petals are elegantly fringed, the upper ones marked with a rich crimson spot, and the under ones elegantly pencilled with violet colored lines..... 0 50

Each.

Reveil de la France. Flowers snow white, spotted with rosy carmine; a delicately beautiful variety, will be largely grown $0 50

*Progress. Pure white, beautiful rose spot on all the petals; neat, floriferous, exceedingly distinct and striking; extra fine 0 50

*Polichinelle. A very novel and distinct flower, centre white bordered with delicate lilac, petals blotched with deep purple; a profuse bloomer. This charming variety will be largely grown 0 75

Trojan. Crimson, upper petals surrounded with bright rose and margined with pink, under petals blush, cleanly spotted with crimson 0 50

Volunte National. An exquisite Pelargonium, of a fine, free, yet compact habit, and produces numerous large and symmetrical trusses of bloom, flowers white, with a warm salmon pink blotch on each segment, margins and throat pure white, petals fringed 0 50

DECORATIVE PELARGONIUMS.

The varieties here offered are largely grown for Covent Garden Market, *London.*

Integrity. Very free compact habit, free bloomer, color orange scarlet, white centre, purple blotch 0 50

Kingston Beauty. Pure white, with dark purple spot on upper petal, very vigorous and free flowering 0 50

Rob Roy. Rosy purple, upper petals black, white eye, fine free habit, profuse bloomer. 0 50

Mabel. Dark maroon top, narrow edge, a heavily painted flower, fine free habit and bloomer 0 50

Mermeris. Free, but compact habit, an early and profuse bloomer, rosy crimson, light centre, purple blotch, fine pot plant 0 50

Scarlet Gem. Very bright crimson scarlet, with light margin, fine free habit, early and profuse bloomer 0 50

The set of 6 for $2.50.

NEW PLANTS.

*ANTHURIUM VEITCHII.

A very handsome Aroid of striking aspect. The leaves are ovate-oblong, greatly elongated, attaining lengths of from 2 to 3 feet, with a breadth of less than one-third of these dimensions; coriaceous in texture and deep green, with a glossy metallic surface when first expanded, becoming paler by age. The principal nerves are arched and deeply sunk, giving the surface a conspicuously waved appearance. As an exhibition or decorative plant it will always take a very high position.

First-class Certificate from the Royal Horticultural Society. Price on application.

*ANTHURIUM WAROCQUEANUM.

A remarkable Aroid. The leaves are greatly elongated, attaining lengths of from 24 to 30 inches, with a breadth of not more than 7 or 8 inches. The ground color is a deep green of a very rich hue, with a velvety lustre and appearance, with which the light color of the midrib and veins form a pleasing contrast. To the lovers of fine foliage plants this beautiful Anthurium will be a most welcome acquisition. $2.00 each.

*JASMINUM GRACILLIMUM.

"*Jasminum gracillimum* is one of the most distinct in its graceful habit, and in the abundance of its large sweet-scented flowers, which are also more copiously produced. It appears to be a small species, with long, very slender branches springing from low down on the stem, and curving over on all sides, weighed down by terminal globose panicles."

As a decorative plant, *Jasminum gracillimum* is probably the best of recent introduction. It is exceedingly floriferous; a flowering shoot is produced from every joint, which terminates in a dense cluster of pure white fragrant flowers. The plant is continuously in bloom from October to January, and its graceful habit renders it one of the most beautiful of flowering plants. $1.00 each.

*ALOCASIA HYBRIDA.

An exceedingly beautiful hybrid, sent out by Messrs. Veitch & Sons. It is of the free growth with exceedingly beautiful foliage with a metallic hue, in the way of A. Veitchii, but much finer; will make a grand specimen plant for Exhibitions, &c. $2.00.

*ALOCASIA THIBAUTIANA.

A splendid foliage plant of stately and robust habit, and without doubt *by far the finest* of all Alocasias. For exhibition purposes it stands in the first rank among foliage plants, and in the Stove it forms one of the most distinguished ornaments. A First Class Certificate was awarded to it by the Royal Horticultural Society.

*GLOBBA COCCINEA.

"The stems, which are about as thick as a goose quill, are much crowded, 12 to 18 inches long and gracefully arching on all sides, giving the plant a very elegant contour. They are furnished with deep green leaves and terminate in a dense raceme of flowers, of which the bracts are scarlet and the perianth yellow. The plant is continuously in bloom during the greater part of the year." "The elegant habit of this plant, its richly colored flowers of singular structure, and their long duration, render it a most useful and interesting plant." $1.50 each.

*BEGONIA SOCOTRANA.

A species of remarkable interest both in its scientific and in its horticultural aspect, discovered in the island of Socotra. *B. Socotrana* is a plant of very neat habit with erect stems 8 to 12 inches high, furnished with orbicular peltate leaves 4 to 7 inches in diameter, and producing a profusion of bright rose-pink flowers of which the males are fully two inches in diameter. Its great recommendation is its very free blooming character, and its flowering in the depth of winter when other Begonias are at rest, thus prolonging the season of these beautiful plants. 75 cts.

*IMPATIENS SANDERIANA.

"The finest floral novelty of the season. It is a superb plant of compact habit, and very branching, perfectly covered with brilliant scarlet flowers which are individually 1½ inch in diameter This magnificent new introduction was discovered by one of our collectors in Asia and we can confidently recommend it as one of the finest novelties introduced for years. Collectors saw plants 18 inches high with 300 flowers." Sander & Co. Ready in April. 50 cts.

*GYNURA AURANTIACA.

"The Gynura Aurantica is a hardy plant belonging to composite, and is of such an ornamental character as to allow of one's saying that it is not surpassed by any other plant of the same class. The stem and leaves are clothed throughout their entire length with a thick covering of hairs, soft to the touch, and of a beautiful deep violet color, which gives an appearance of the richest velvet to the plant. This is more especially the case with young leaves, and when combined with the brilliant orange of the flowers, the aspect of the plant is truly superb. Without doubt it will gain great favor as an ornamental plant for open border." Considered the finest of bedding plants. Ready in April, price, 50 cts.

*POTHOS CELATOCAULIS.

"This plant is a handsome and interesting climber, lying perfectly flat upon the surface it climbs over, being held in position by its numerous adventitious roots; and, as it is a rapid grower, it is admirably adapted for covering walls, trunks of Tree Ferns, &c. In general appearance it has much the look of the barren shoots of *Marcgravia paradoxa.*" $1.00 each.

*POTHOS AUREA.

The leaves are strikingly variegated, heart-shaped and unequal sided, of a dark green, boldly and irregularly marked by bands or fantastic-shaped blotches of creamy yellow, here and there suffused with pale yellowish-green. Being of free growth and having a boldly marked variegation, it will be an ornamental object in the tropical plant stove, where it will find itself at home in clothing walls and artificial rockwork. $1.00 each.

*PAVONIA MAKOYANA.

A handsome free-blooming plant of erect growth. Its corymbs of flowers are peculiarly attractive from the bracteoles being large and of a bright rosy carmine color, forming a striking contrast with the dark purple corolla. The plant is extremely floriferous, and the blossoms remain a long time in perfection. $1.00 each.

*PAVONIA WIOTI.

"A very striking flowering plant. The outer calyx consists of two whorls of narrow slender *bright red* bracteoles, the outer whorl shorter than the inner, which equals the closed corolla. Both the latter and the calyx are of a '*red black.*'

"It flowers continuously throughout the year, but most freely in the winter months; it also commences to bloom when only 2 to 4 inches high, and a small plant has from 20 to 40 blooms open at one time, and thus with its neat habit and pleasing foliage it will be exceedingly valuable for decorative purposes." 75 cents.

*MONTBRETIA CROCOSMIÆFLORA.

An exceedingly beautiful bulbous plant, a hybrid between Montbretia Pottsii and Crocosma Aurea—flowers in long spikes like a Gladiolus; color brilliant orange and crimson. $1.00.

*MONTBRETIA POTTSII.

A bulbous rooted plant from the Cape, requires similar treatment to Gladiolus; stem 1½ to 2 feet high, with a panicle nine inches long, bearing long, deep bright yellow flowers, tinted outside with red. 30 cents.

*HIGGINSIA RŒZLI.

A very beautiful new tropical plant. $1.00.

*ANTHERICUM PICTURATUM.

Without doubt one of the handsomest foliage plants ever introduced, in growth equal to *A. Vitatum*, the variegation is entirely distinct, having a rich creamy white band ¾ of an inch wide running through the centre of each leaf, margined on each side with rich deep green. 50 cents.

DOUBLE PINK BOUVARDIA "PRESIDENT GARFIELD."

"We take pleasure in introducing this new variety. It is exactly like the double white, same shape and just as floriferous. Its color is a bright pink, and will certainly please everybody." 30 cts.

NEW TRITOMAS (KNIPHOFIA).—Flame Flower.

	Each.
*Tritoma Nobilis. Truly called "Noble;" a plant of very vigorous growth, throwing up a flower stem six feet high, surmounted by a foot-long cylindrical flower-head, of bright scarlet and golden yellow	$1 50
*Tritoma Saundersii. Also a vigorous plant; the flower stem is not quite so tall, and the head is conical instead of cylindrical; the flowers are red throughout; a fine addition to the group to which it belongs, and both should be included in the most select collections	1 00
*Tritoma Caulescens. This is a very distinct plant, rising on a stem, with a Yucca-like head of channelled, arching leaves; the flower stem is from two to three feet high, surmounted with an enormous head of brilliant blossoms	1 50
*Tritoma Quartiniana. This also rises on a short stem; the leaves are channelled, arching, rigid, their points touching the ground, and of a glaucous blue color; the flower stem is stout, surmounted by a large head of yellow flowers	1 50
*Tritoma McOwnii. A very beautiful species with orange scarlet flowers	0 50

*DIEFFENBACHIA LEOPOLDII.

A South American plant of resplendent beauty. The leaves are oblong-ovate, of a rich deep lustrous satiny green, traversed by a broad and stout ivory-white rib, which is bordered on each side through its entire length with a whitish band, and shows in strong contrast to the color of the leaf surface, producing a marvellously fine pictorial effect. It is one of the most handsome of the Dieffenbachias yet introduced. $2.00 each.

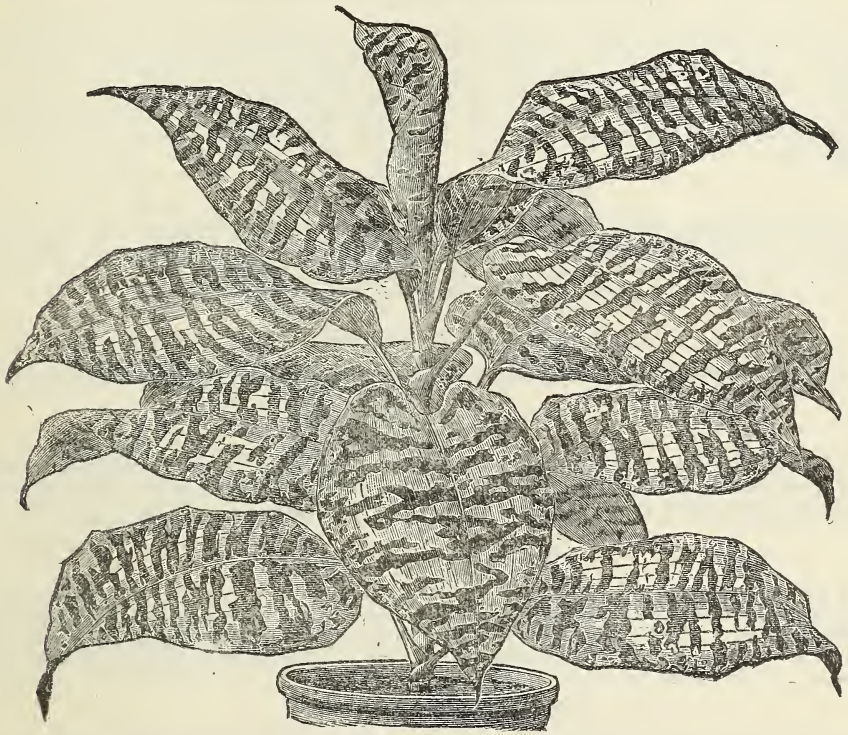
*DIEFFENBACHIA ILLUSTRIS.

A stout-habited stove plant of noble character, having erect stems, which bear bold and finely marked leaves. The blade is large, oblong-ovate, distinctly cordate at the base, marked all over with irregular blotches of yellowish green, and with a tendency to become yellow along the course of the principal ribs. $1.50 each.

*DRACÆNA GOLDIEANA.

One of the most magnificent ornamental foliaged plants ever introduced, and altogether unique in character and aspect. It is a native of Western Tropical Africa. The plant is of erect habit, and the stems are closely set with stalked spreading leaves, the petioles of which are of grayish color, terete with a narrow furrow along the upper side, the base being dilated and sheating the stem. The blade of the leaf is cordate-ovate acuminate, with a yellowish green costa, and banded with dark green and silver gray in alternate straight or furcate bands, the colors being about equally distributed. The back of the unrolled leaves is a pale reddish purple or wine color, and the stem where visible at the upper joints is of similar hue, the lower parts becoming green. It is, without doubt, one of the finest of all stove plants and indispensable in all first class collections.

This magnificent plant was sent out in London at 5, 7½ and 10 guineas per plant. Price on application.



DRACÆNA GOLDIEANA.

*CURMERIA WALLISII.

A stove plant, very ornamental in character. The leaves are spreadiug and marked with very irregular dark green maculations, some running out from the green costa, and others situated near the edge. The intermediate spaces are furnished with broadish patches of very pale yellowish green, which in the more matured leaves becomes a greenish gray. The colors are about equally dispersed, though the marking is very irregular, both as to the size and form of the blotches. $1.50.

*HOYA GLOBULOSA.

"Under the name of Hoya globulosa, Cranston's Nursery and Seed Company, Hereford, exhibited at the meeting of the Royal Horticultural Society, a charming Hoya, so pretty and distinct as to merit and receive a First class Certificate of Merit.

"We can confidently recommend it as a most useful and valuable plant, blooming profusely and thriving well under the same treatment as other Hoyas. The flowers are of a bright straw color, the coronal protuberances white, the interstices of a shining brownish pink, forming a very pleasant contrast; the trusses large and freely produced; and the leaves of a shining green color, with dark green veins."—*Floral Magazine.* $1.00 each.

*BURBIDGEA NITIDA.

"This beautiful plant is the type of an entirely new genus, with the habit of Hedychium. It is a native of Borneo. It produces ten to thirty slender flowering stems, each bearing a panicle of 12 to 20 flowers each. The leaves are of a lively glossy green on both surfaces, and serve to set off the rich orange scarlet colors of the flowers. Its flowers, of a rich orange hue, render it a very striking stove plant."

"The first place among new plants must be claimed for Burbidgea Nitida." $1.00 each.

*HIBISCUS ROSA-SINÈNSIS ZEBRINUS.

A very distinct and handsome variety with double flowers, which are beautifully flaked and striped. The individual blossoms are about 3½ inches in breadth, and 2½ inches in depth; the five outer petals scarlet edged with creamy-yellow in the lower part. The staminal column is entirely petaloid, with a few large petal-like bodies, forming numerous irregular tufts at the apex, of a creamy-yellow color, variously and irregularly striped and flaked with scarlet. Both the form and marking of the flowers are very irregular and grotesque. $1.00 each.

HIBISCUS SCHIZOPETALUS.

"One of the most remarkable varieties of H. Rosa Sinensis; the petals are deeply laciniated and fringed, as are the petals of Mignonette, Clarkia, &c. Its drooping flowers with reflected orange red, and laciniated petals render this plant not only a curiosity, but highly valuable as a decorative plant. A most singular and elegant plant."—*Garden.* 50 cts. each.

CRASSULA JASMINEA.

A very valuable and handsome plant, flowers white resembling a Bouvardia, very fragrant. Ready in April. 75 cts.

ARDISIA OLIVERI.

"*Ardisia Oliveri* is a stove shrub of remarkably striking appearance, with recurved foliage and large globular heads of flowers like those of an *Ixora*, but of pink color. The plant was introduced from Costa Rica by the late M. Endres."—*G. Chronicle.* 75 cts.

*GARDENIA GLOBOSA.

A native of Natal, where it extends from the sea-coast to an elevation of 1200 feet, is a free-flowering shrub, having lanceolate glabrous leaves. The large white funnel-shaped fragrant flowers are terminal, the tube broad, an inch long, hairy at the mouth, and with the spreading limb an inch and a half across; they are succeeded by globose fruits, as large as a walnut. $1.00 each.

*BIGNONIA MAGNIFICA.

A free growing and extremely floriferous stove plant, of scandent habit. The flowers which are produced in large branching panicles, are of great size (about 3½ inches across), and of exceedingly attractive color, ranging from delicate mauve to rich deep purplish crimson, relieved by a conspicuous throat of light primrose color. $1.00.

TRADESCANTIA MULTICOLOR, "MADAM LEQUESNE."

This new variety is well adapted for basket culture. The leaves are pale green, beautifully variegated with white and rosy purple; sometimes the leaf is entirely suffused with either color; a very distinct and decidedly pretty plant. 20 cents each.

*PHILODENDRON CARDERI.

The leaves are cordate, broadish, of a dark shaded bottle green, with a satiny lustre, the principal ribs being marked out by bright green lines of glaucous or metallic hue; at the back the leaves are of a shaded wine purple, the course of the veins being marked by broad green lines. The glossy shaded satiny surface of the leaves imparts to them a wondrous degree of beauty. $1.00.

JUNCUS ZEBRINUS.

The plant, which is a true rush, throws up erect terete leaves, but these instead of being green, are transversely banded with white and green, the colors being in most cases pretty evenly distributed; in the best marked leaves, the green and white portions occupy alternately nearly equal bands of about half an inch deep. It is a most interesting plant. 75 cents.

ASPARAGUS.—New Species.

Florists will find in these new Asparagus with their delicately beautiful feathery growths, plants admirably adapted for floral work.

*Falcatus. A copiously branched twining evergreen. It grows several feet in height, and has slender angular branches. The leaf-like cladodia are in threes, bright, green and glabrous. $1.50

*Plumosus. An elegant evergreen climber with slender stems, smooth and numerous spreading branches; the white flowers are produced from the tips of the branchlets. It is an exceedingly handsome ornamental plant for the greenhouse or conservatory, and its pretty feathery growths are extremely useful for cutting for decoration.

*Racemosus. An elegant climbing foliage plant. The stems are very slender, and furnished with still more slender branchlets and spray, clothed with linear cladodes or false leaves of bright glossy green. It is a most desirable plant for the conservatory and warm greenhouse. $1.50.

*Virgatus, Of shrubbery habit elegant and feathery. Rootstock emitting several stems, the upper part of which branch in a corymbose manner: branches sub-erect, again twice branched: a feathery graceful plant. $1.50.

*GLONERIA JASMINIFLORA.

A fine evergreen stove shrub, of erect branched habit and terminal roundish corymbose panicles of long tubed white flowers with a four-parted limb, and freely produced; a beautiful plant. $1.00.

*ERYTHRINA MARMORATA.

"A free growing, very showy variegated plant, of erect habit, with beautifully colored foliage. The leaves are broader than those of the flowering kinds usually cultivated; they are blotched and spotted with white in a very effective manner.

"The elegant and beautiful appearance of this plant renders it most useful for decorative purposes." 75 cents.

ALPINIA ALBO-LINEATA.

A very striking and beautifully variegated Plant, 3 to 4 feet high when fully developed. The leaves are 9 to 12 inches long, elliptic-lanceolate, pale green, marked divergently with broad bands of white and pale green. This is a grand addition to our ornamental Plants, and makes a fine contrast intermixed with other Foliage Plants. 50 cents.

GRAPTOPHYLLUM NORTONII.

"The leaves are of ovate-oblong form, about 6 inches long and 2½ inches broad, and deep glossy green. The mid-ribs are at first light rose, and have on one or both sides a central blotch of light yellow. As the leaves approach maturity the mid-ribs deepen to crimson and the blotches become suffused with rose." 40 cents.

ARTOCARPUS CANNONI.

A tropical plant of exceedingly ornamental foliage of a rich bronzy-crimson tinted with purple above, beneath of a vinous red, about 1 ft. long and 7 in. broad, very variable. 50 cents.

PANAX LACINIATUM.

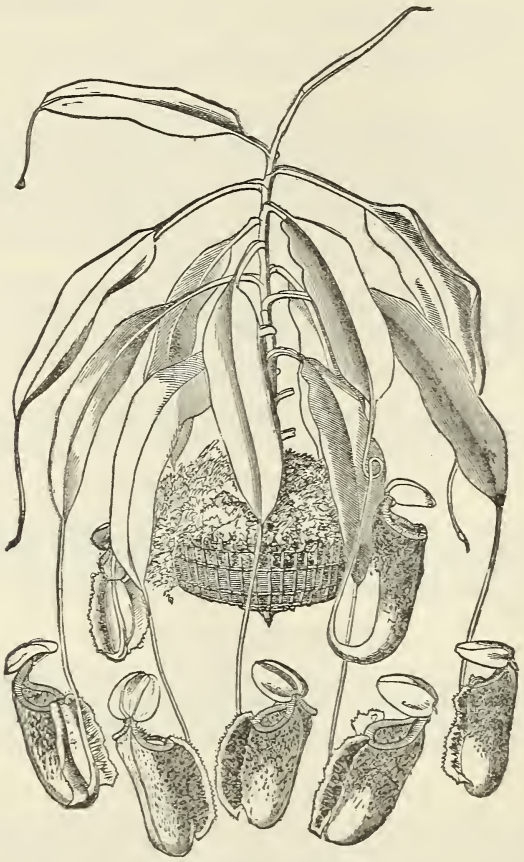
"An elegant and very distinct plant. The leaves are tinted and indistinctly marked with pale olive brown, and form a rather complicated mass of narrow segments; they are bipinnate, nearly as broad as long, and have a drooping contour; and the pinnules or segments are very variable in size and form, presenting the appearance of a complex head of foliage." 50 cents.

CLIDAMIA VITTATA.

"A splendid foliage plant, having large green leaves with a light band down centre of the leaf, of easy culture and rapid growth. 40 cents."

HYDRANGEA J. TRICOLOR.

A very beautiful variety of Hydrangea. Variegated with white and yellow. 50 cts. each.



Pitcher Plant.

NEPENTHES, PITCHER PLANT.

	Each.
*Gracilis Major. This is a plant of free growth and somewhat compact habit; its pitchers are produced very abundantly; the ground color is dark green, over which is a profusion of dark reddish brown spots	$0 75 to 2 50

Each.

*Phyllamphora. This plant is of very free growth, producing in great profusion moderate sized pitchers of a bright green.....$0 75 to 2 50

*Lævis. Of very free growth, producing its pitchers freely, of moderate size, of a bright green, shaded with reddish brown.....$0 75 to 2 50

*Courtii. A hybrid pitcher plant of exceptional merit The plant, although free growing, is dwarf in habit. The leaves are coriaceous, and margined with hairs. The pitchers, which are freely produced, are flask-like, deep green in color, densely spotted or clouded with deep crimson, and attain a length of from six to eight inches. The membranous texture of the pitcher is remarkably firm and durable.....$3 00 to 5 00

*Hookerii. A magnificent species of robust habit: the leaves are long and broad, supporting fine large pitchers upwards of four inches in length and two inches in diameter. The ground color is dark green, which is profusely streaked and blotched with dark red.....$2 00 to 4 00

*Rafflesiana. Of robust growth, producing very large pitchers of great beauty, which measure from six to twelve inches in length; ground color dark green, mottled and blotched with red. Its handsome pitchers render it a general favorite..... 2 50

*Sedeni. The pitchers are produced freely even on very small plants; they are of medium size, oblong, dilated at the base, narrowed above the centre, and slightly expanded towards the top, and provided with two ciliolate wings; in color a dark green, densely covered with dark red spots. It is of dwarf and very neat habit. $2 to 5 00

*Hybrida Maculata. It is of free growth, and produces its pitchers in great profusion; they are cylindric, slightly contracted above the middle and winged, the wings being ciliated; they are stained with purplish red spots of a peculiar tint, by which this variety may be recognized..... 2 50

*Dominii. A very beautiful pitcher plant, producing its large pitchers freely; color green, marbled and spotted reddish brown..... 2 50

*Morganiæ. It is of dwarf neat habit, furnished with smooth, pale green leaves with red midribs. The pitchers are flask-shaped, with two rather narrow ciliolate wings, when fully grown are from six to eight inches in length. On the younger plants the pitchers are beautifully mottled with bright red and pale green; in the older plants they are almost self-colored and blood red The lid is always pale green, offering a remarkable contrast to the richly colored *asciduim* or urn.....

*Nepenthes Stewartii. A hybrid between *N. phyllamphora* and *N. Hookeriana;* pitchers intermediate in size between the parents, with rather broad ciliate wings in front and a prominent rib behind, deep green densely spotted and clouded with crimson.....

*VANILLA AROMATICA.

This is the well known Vanilla of commerce.....

**NEW CROTONS.*

*Cronstadtii. "A remarkable variety, in which the curious twistings and interruptions frequently manifested in the leaves of this race of plants are developed in a very striking manner. The leaves are of medium size, lanceolate and tapering to a sharp point; in color, a deep glossy green variegated with bright golden yellow. They are twisted, curled, and crisped into a great variety of forms. The depth and richness of its coloration together with its curiously distorted leaves render this Croton a most distinct and interesting decorative plant." "A handsome plant with long narrow twisted leaves, richly colored "—*Gardeners' Chronicle*.....

*Massangeanum. A very richly-colored form, with long linear-lanceolate acuminate leaves. The young ones creamy-white blotched with green, changing with age to carmine-rose with yellow and dark blotches between the veins.....

*Carrierii. A superb Croton, with large finely variegated foliage.....

*Stewartii. One of the most distinct Crotons ever offered of the broad-leaved kinds; the habit is dwarf and bushy, and this variety colors when in a very small state. The leaves dark green, irregularly banded and margined with rich orange The mid-rib and petioles are bright magenta, which produces a striking contrast to the carmine markings on the remaining portion of the leaf.....

Hawkeri. "It is of dwarf and compact habit. The coloring of the plant is very effective The middle and lower portions of the leaves, together with the footstalks, are light creamy yellow which spread over the greater part of the leaves, the extremities with the edges of the leaves only are bright green..... 1 00

Each.

Lancifolius. The leaf is dark green, the mid-rib, margin and primary veins pale yellow, which, as the plant attains its character, becomes reticulated with bright rosy pink; the whole of the leaf presenting a very charming mosaic appearance..... $0 50 to 1 00

Nevilliæ. When first expanded their mid-ribs are bright golden yellow, and the blades light olive green barred and marked with yellow. In the mature leaves, the yellow is changed to crimson shaded with orange, and the green much deepened, the whole being suffused with a metallic hue peculiar to this plant.....$0 50 to 1 00

Evansianus. The newest formed leaves are light olive green with mid-ribs and veins of golden yellow, and the inter-spaces spotted with the same color. As the leaves become older, the green deepens and changes to a bright bronzy crimson, and the golden yellow of the mid-ribs, veins and spots becomes a rich orange scarlet."..... $0 50 to 1 00

Hanburyanus. "The leaves are about 15 inches in length and 2½ inches in breadth. The ground color, a bright olive green in several shades is, in many leaves, quite subordinate to the rich golden yellow and rosy crimson that suffuse the whole plant. All the leaves are beautifully marbled and blotched with these tints."..... $0 50 to 1 00

Mortii. "The leaves are of a very dark green color, being marked out by a band of golden yellow a quarter of an inch wide, and all the principal veins also being broadly marked with yellow; these latter markings meet near the edge, where there is a variegation of broken reticulated golden lines."..... $0 50 to 1 00

Williamsii. This is one of the red-tinted series, very strongly flushed with violet crimson. The leaf has a central band and costa of yellow, from which the pinnate veins of the same color branch out on either side. These veins all change to deep crimson, and the whole plant becomes flushed with a glowing tint of crimson, shaded with violet, which renders it extremely conspicuous..... 1 00

Princess of Wales—(*Glorious*). This is one of the long-leaved drooping forms of Croton. The leaves are from 1½ to 2 feet in length, sometimes plane and sometimes strongly undulated. The ground color is green, and the variegation creamy-yellow, very variable in character. In some there is a creamy-yellow mid-rib, with a band on each side; in others, the mid-rib is bright green..... 1 00

Macarthuri. The color is constant, but the markings on the different leaves are as varied as the forms assumed by the leaves themselves. The habit is *excellent*, and the very striking variegation, fully one-half of which is yellow. The mid-ribs are yellow, and the bright green ground of the blades are spotted, blotched, flaked, and barred in infinite variety.....$0 50 to 1 00

Variabilis, (Falcatus.) A robust variety. It has long leaves, marbled and blotched with different shades of yellow, orange and crimson. The leaves, both in color and shape, are very variable; some are straight, others recurved, falcate or often distorted, their surface being either smooth or undulated.....$0 50 to 1 00

Fasciatus, (Hendersonii.) The ground color is a very deep green, the principal veins being marked by bright yellow lines, interlacing near the edge, where, and especially near the point, the surface is chiefly yellow, with irregular small green spots. The mid-rib forms a brownish yellow band.....$0 50 to 1 00

Queen Victoria. The ground color of the leaf is rich golden yellow, beautifully mottled with green; the mid-rib and the primary veins are of a rich magenta color, changing with age to a vivid crimson; the margin of the leaf is unevenly banded with carmine, often extending as far as the mid-rib.....$0 50 to 1 00

Challenger, (Imperator.) The variegation is very striking. The mid ribs are at first creamy white, which gradually becomes suffused with red, finally deepening to bright crimson carmine. The ground color is light green, but much blotched and streaked with light yellow that takes a rosy tint as the mid-rib deepens in color.....$0 50 to 1 00

Extra size plants of the above Crotons can be supplied at extra prices.

BERTALONIAS.

*Van Houteii. Has the leaves of a rich olive velvet ground color, traversed broadwise by large bars of beautiful magenta red, and dotted all over with thousands of spots of the same color. This description will, however, give only a slight idea of the real beauty of this plant..... 0 50

*Rodeckii. Ground color bronze, speckled with white spots, nerves fine green, edged with creamy white; a perfect gem..... 1 00

Guttata. Leaves dark green, profusely dotted with rose colored spots, a charming plant..... 0 50

*HESPERALOE YUCCAFOLIA OR ENGELMANII.

Each.

A very scarce and beautiful plant from the Nueces River, Texas, which is best described as a Yucca with red flowers The discoverer's description is "a large group of these plants with flower stems from 4 to 5 feet in height, covered entirely with beautiful red bell-shaped flowers, which we took at the first glance for Yuccas." $1 00

*GOODYERAS.

Dawsoniana. A very beautiful plant. The leaves are blackish-green on the upper side, and very glossy, with lines of beautiful golden purple transversing from the base to the apex; flowers white 2 00

Discolor. A beautiful plant, grows about six inches high; foliage a beautiful dark velvety color, with white markings through its entire length, flowers white 0 50

*VIBURNUM TINUS SPLENDENS.—(LAURESTINUS.)

A variety of Laurestinus with magnificent large flowers. It is also a good grower and free bloomer 1 00

*HIBISCUS CARDIOPHYLLUS, (*New.*)

This extremely beautiful Hibiscus, I have the pleasure of offering for the first time. I received it from southwestern Texas. In habit it resembles an Abutilon. My plants were bedded out the past summer and succeeded admirably, flowering profusely during the season. The flowers are bright scarlet, over two inches across, which makes it a very striking plant. A sterling novelty 1 00

PHYLLANTHUS ROSEA-PICTUM.

The variegation is exceedingly rich and varied, both in color and form, no two colored leaves showing precisely the same markings with like tints. Many of the leaves are bright crimson, which is also the color of the stem during the early stage of growth; some are a light cream color, tinged with a delicate blush, others again have a dark bronzy hue, shaded with crimson; some are dark green, with blotches and spots of rose while others are tri-colored, white with different shades of rose and green.. 0 50

DICHORISANDRAS.

*Mosaica. An extremely handsome plant, of dwarf habit; leaves large, ground color of the upper side rich deep shining green, traversed with an innumerable quantity of parallel transverse fine white lines; the upper side is of a uniform deep purple. It also produces lovely rich azure flowers 1 00

Thyrsiflora. A very fine species; flowers in a thyrse of a rich azure; *magnificent species*, 0 75

Undata. Very different from *D. mosaica.* producing large ovate leaves, very dark green in color; the mid-rib and veins are of a lighter green, which gives the leaves a striped or marbled appearance 0 50

NEW FERNS.

*ADIANTUM BAUSEI.

A hybrid variety between *A. Trapeziforme* and *A. Decorum*: in size intermediate between the two. Its peculiarity is the drooping position of the pinnules, which are deflexed sideways from the plane of the rachis; in the form of its pinnules it also differs from any other known Fern 2 00

*ADIANTUM WILLIAMSII.—*The New Golden Maiden Hair.*

This spendid novelty is destined to become a general favorite, and for cutting purposes its value cannot be over-estimated. It succeeds well in a green-house temperature. It is in every respect quite as free and hardy as *A. Cuneatum*, and will make a fine exhibition plant. "It is a native of Peru, where it is found on the mountains growing at an elevation of 12,000 feet." 2 00

*DAVALLIA ELEGANS POLYDACTYLA.

Each.

"The *Davallia elegans* is well known as one of our best evergreen Stove Ferns—one which is strikingly handsome, not only in its grand contour, but also in the dark glossy green of its substantial long enduring fronds." "In its general aspect, the new variety resembles its typical form, but instead of the apex of the frond itself, and the apices of the pinnæ and pinnules coming out to and terminating in a narrow point, this point becomes dilated and split down into several divisions, each of which is again multifidly divided, so that the apices all become crested. The whole contour of the plant is extremely ornamental."..... $2 50

*DAVALLIA MARIESII.

A very elegant evergreen Japanese Fern, of dwarf habit and free growth. As a basket Fern for the conservatory and greenhouse *D. Mariesii* is one of the best. Its flexuose rhizome spreads freely in all directions, and its numerous fronds thence present an enduring globose mass of verdure. Grown in a pan, this pretty Fern is also very effective and distinct..... 1 00

ADIANTUM LUDDEMANNIANUM.

A remarkable variety, quite unlike any other Maiden-hair Fern in cultivation. The peculiarity which distinguishes this Adiantum from all others consists in the pinnules being crested or agglomerated at the extremities of the stripes and their rachides; they are also much crisped and curled. Fronds erect, from 8 to 12 inches high; pinnules on short petioles, generally fan shaped, and deep green color..... 1 00

GLEICHENIAS.

*Dichotoma. A very handsome species, makes a nice specimen plant..... 2 50

Flabellata. A distinct and fine species, makes a strikingly beautiful plant. 2 50

*Mendelii This is one of the most distinct and free-growing kinds. It makes a handsome exhibition plant, and will also be found very useful for decorative purposes. It is a very compact-growing species, requiring cool treatment. The pinnæ are of a thick texture, and very glaucous on the under side. Native of New Zealand.....

*Rupestris Glaucescens. A very distinct form of *G. rupestris;* the fronds are of a much thicker texture and very glaucous on the surface, changing with age to a bright glaucous green. A very effective variety.....

*Semivestita. A very pretty compact free growing species, makes a handsome specimen plant..... 2 00

*Speluncæ. A distinct and beautiful species, makes a charming specimen plant.....

*DAVALLIA FIJIENSIS MAJOR.

An elegant Fern. It has slender stripes and gracefully arching fronds; the pinnules are finely and beautifully cut, and of a bright green color. Its graceful habit and cheerful color render it a valuable addition to our lists of Ferns requiring the temperature of the intermediate stove or warm greenhouse..... 1 00

*LOMARIA DISCOLOR BIPINNATIFIDA.

One of the most pleasing and attractive of Lomarias; from its elegant habit and its beautifully divided fronds, which have characteristics quite distinct from those of any other species. The fronds are numerous, and spring from the crown of a short robust stem, arching, and from 18 to 24 inches in length; the pinnæ are very close set, so as to overlap each other, and are cut to the rib, the outer sub-divisions being slightly crisped..... 1 50

NEPHROLEPIS DUFFI.

A beautiful and distinct Fern. The fronds are densely crowded, from 15 to 18 inches long, pinnate, and much crested. The pinnæ, which are small, are produced in pairs, one overlaying the other, those above being largest. The compact elegant habit of this Fern and its bright attractive color, render it a most desirable acquisition..... $0 25 to 0 50

LASTREA ARISTATA VARIEGATA.

Each.

One of the most charming of greenhouse variegated Ferns. It has the same kind of leathery fronds of the type, and like it is of a rich dark full green color, which sets off the distinct variegation to much advantage; the variegation consists of a band of pale yellowish-green, which runs down the centre of the pinnæ, and includes the mid-rib.....$0 50

*ADIANTUM SPECIOSUM.

A very elegant Fern, of semi-scandent habit, with large tripinnate fronds, which frequently attain a length of 36 inches with a width of 21 inches, the pinnules of which are ¾ to 1 inch across the lobes cuneated and soriferous at the apex. The whole of the pinnules are covered with dense short hairs, giving the foliage a woolly feeling when touched..... 1 00

ASPLENIUM NOBILIS.

This is a graceful Fern with light, lace like pinnæ and arched fronds, which somewhat resemble those of *A. vviparum* or *A. lineatum*..... 0 50

DENNSTŒDTIA DAVALLIOIDES YOUNGI.

"In its native country it is said to produce fronds 17 feet in length; and as seen in this country, under pot culture, it has caudices as thick as one's finger, and fronds 7 or 8 feet in length. To this stout and vigorous constitution, it adds the elegance and gracefulness of minute subdivision, so that its fronds, though large, are utterly devoid of coarseness; while growing to a large size, it is one of the most finely cut of all the large growing sort."..... .....$0 50 to 1 00

ARALIAS.

Filicifolia (new). An ornamental leaved plant of the first rank, graceful in habit, and well furnished with foliage, altogether one of the most valuable decorative plants of its family. The stem and leaf stocks are purplish, thickly marked with oblong white spots; the leaf stocks are sheathing at the base, expanding into a broad leafy limb, which is imparipinnately divided..... 0 75

*Elegantissima. A beautiful plant with straight erect stem, furnished at short intervals with digitate leaves on long foot stalks, mottled with white on a dark green ground; the leaflets, from seven to ten in number, are filiform, deeply and unequally serrate and gracefully pendulous. The color of the foliage is a deep green shaded with brown..... 1 50

*Veitchii. A very elegant plant from the South Sea Islands, producing very narrow digitate leaves, considerably undulated; upper surface deep green; under, dark crimson. One of the most beautiful decorative plants in cultivation..... 1 00

Guilfoylei. The bold pinnate leaves are made up of from three to seven stalked oblong-elliptic bluntish leaflets; these leaflets vary in size from two to three inches long, and are neatly and evenly margined with creamy white, the surface being, in addition, occasionally splashed with gray. A fine and distinct ornamental stove plant.25 cts. to 0 50

Reticulata. A very distinct species of free growth; a fine decorative plant 0 50

*Amboinense—(*Sciadophyllum pulchrum*). A very ornamental plant with large bright green shining foliage. A grand decorative plant 1 50

Sieboldtii..... .....25 cts to 0 50

ANTHURIUMS.

*Crystallinum. The emerald green refulgent leaves are spotted all over with a brighter shade, and bordered by a broad silvery or rather crystal band, which surrounds the intramarginal and four secondary nerves. These dazzling white zones are so distinct and regular that they resemble a border of incrusted silver around the sections of the blade of the leaf.....$1 00 to 2 00

*Regale. This is a superb ornamental foliage plant. There are several varieties of this plant. The one now offered is the finest; the leaves are heart-shaped, much lengthened out towards the apex, and rich dark velvety green in centre.....$1 00 to 2 00

Each.

Magnificum. The foliage of this plant is truly magnificent, a noble species, with large velvety-green leaves and broad silver veins ..... .$0 50 to 1 00

*Scherzerianum. One of the most striking and beautiful dwarf-flowering stove plants of recent introduction, producing beautiful brilliant scarlet flowers, each of which remains from two to three months in bloom. This charming and novel plant is easy of culture, and a most abundant bloomer..... .....$1 50 to 2 00

*Scherzerianum Williamsii. In habit and growth it is in all respects like the normal state, but its spathe and spadix differ entirely; in the variety now offered the spathe is pure ivory white, and the spadix a pale lemon color..... 2 00

Floribundum. A very pretty species, of easy culture. Flowers pure white, freely produced..... 1 00

ALOCACIAS.

Macrorhiza Variegata. Leaves nearly as large as *Colocasia Esculentum*, broadly splashed with white. Some leaves nearly all white. Its easy growth, combined with the rich variegation, makes it a very telling subject for exhibition.....50 cts. to 1 00

*Sedeni. "A very beautiful hybrid, between *A. Metallica* and *A. Lowii*. The form of the leaf is perfectly intermediate between the two parents, whilst the coloring is a very striking and pleasing combination of the metallic hue of one parent, with the dark green, and prominent white veins of the other. A fine foliage plant..... 1 00

*Lowii. A very beautiful plant with large shining foliage. Forms a fine specimen... 1 50

Veitchii. The foliage of this plant is exceedingly distinct. A grand show plant..50 cts. to 1 00

*Zebrina. Fine yellow leaf-stalk, with distinct black marks, rendering it a very conspicuous plant. It makes a grand specimen..... 1 00

*Metallica. A plant possessed of great beauty. Large thick shell-like leaves of a bronzy-copper color. It is distinct and admirable in every respect.....75 cts to 1 50

Illustris. (*Gibsonii.*) The leaf-stalks are erect, and have a brownish-purple tint, color a rich green, marked between the principal veins by broad patches of blackish olive, forming a striking contrast with the brighter green portions of the leaf surface.. ... 0 25

Jenningsii. A delicate green, over which, between the principal veins are laid heavy blotches of black, which are remarkably precise in outline and arrangement..... 0 25

*ÆNOTHERA HARTWEGII.—(*New.*)

This very beautiful species I have introduced from southwestern Texas. The past dry, warm season it bloomed in the open border all through the summer and autumn unaffected by the weather, giving its large bright yellow flowers, in great profusion.. 0 50

*PENSTEMON BACCHARIFOLIUS.—(*New.*)

A fine species from southwestern Texas; flowers rich crimson, blooms profusely during our dry summer, consequently of great value for the open border..... 0 50

*PHYGELIUS CAPENSIS.

This pretty Penstemon-like plant I have found quite hardy, it having passed several winters out doors without protection. It grows from 3 to 4 feet high and has numerous semi-herbaceous stems, each terminated by a long branching raceme of flowers which are brilliant scarlet. It is a most persistent flowerer, beginning in May or June and continuing up to frost..... 0 50

"This is one of the most ornamental hardy plants in cultivation."—*Garden.*

CLITTORIA CŒRULEA.

A climbing plant of moderate growth, which flowers freely during winter, flowers in clusters of deep mazarine blue, pea-shaped flowers..... 0 50

SALVIA GREGGII.

A pretty new species which I have just introduced from Texas. This has long spikes of purple flowers; a continuous bloomer, very compact habit, and nearly or quite hardy in this latitude..... 0 50

ANASACANTHUS WRIGHTII.—(*New.*)

Each.

Another new plant which I have received from the same latitude in Texas as the Salvia. A shrub attains a height of four to five feet, bushy, flowers orange, a continuous bloomer, nearly or quite hardy..... $0 50

SONERILA HENDERSONII.

A charmingly variegated plant, of dwarf habit. Its leaves are most elegantly studded over with silvery white pearl, or tiger like spots upon a rich dark olive green ground. Flowers rosy lilac. This beautiful plant proves far easier in its management than any of the former species of Sonerila. We have found this plant a profuse bloomer during the winter. Florists should grow it largely..... 0 50

PHYLLOTÆNIUM LINDENI.

A fine Aroid discovered by Mr. G. Wallis, in New Grenada, and sent by him to M. Linden, of Ghent. The plant has robust foliage, which is very persistent; the leaves are of a light glossy green, marked by bands of white, which cross the blade in almost parallel lines from a prominent mid-rib of the same color..... 1 00

CLEMATIS INDIVISA.

An evergreen species from New Zealand, of rapid growth, not quite hardy, suitable for a cold greenhouse. It gives in great profusion during winter its small white flowers, 0 75

SENECIO PULCHER.—(*Beautiful Groundsel*)

A half hardy perennial, a pretty plant, with rosy-crimson flowers, very showy, flowers late in summer. *Figured in American Agriculturist*..... 0 30

VERONICAS.—(*New.*)

Hendersonii. A new species introduced from Japan, growth about two feet high, robust habit, foliage broad, of a deep rich green, dense and abundantly produced. The flowers are very large, rich deep violet blue, produced in large cluster heads composed of many spikes, the finest of the herbaceous section of Veronicas..... 0 75

Elegans Variegata. A very beautiful hardy herbaceous plant, with elegantly variegated foliage, long spikes of blue flowers..... 0 50

DRACOCEPHALUMS.—(*New.*)

Ruyschiana—*Var. Japonicum.* "It is a hardy herbaceous perennial, 18 to 24 inches in height, branching from the base. The violet blue flowers, 1¼ inch in length, are in terminal verticillasters, intermixed with numerous obovate acuminate leafy bracts..... 0 50

Ruprechtii. A beautiful new hardy perennial, flowers in long spikes of azure blue..... 0 50

CANNA EHEMANNI.

The most distinct of all Cannas on account of the large oval Musa-Ensete-like soft green leaves which place it foremost among decorative foliage plants. Its most striking feature is the splendid carmine red flowers produced on flower stems of great length that unfold about 12 flowers to each of the smaller branches. These flowers are very large, and are used to advantage in bouquet-making, or producing splendid effects on the lawn. See plate in "*Garden.*"..... 0 50

TECOMA STANS.

A very fine plant from southwestern Texas, has succeeded finely bedded out with us during summer; the flowers are a rich yellow, and very floriferous..... 1 00

CAMPYLOBOTRYS GHIESBRIGHTI VARIEGETA.

A pretty variegated variety of this beautiful plant..... 40

DORYANTHES PALMERI.—*Queen's Land Lily.*

Each.

The flower-scape rises from the centre eight feet in length, forming densely clothed pyramidal compound racemes, much like those seen in various *Yucca* species. Flowers numerous, approaching in size and form to those of the well known *Vallota purpurea*, from three to four inches in diameter, of a rich pœony crimson hue, with a white centre. Each blossom is accompanied with leaf bracts of an equally rich color as the flower. $1 00

TABERNÆMONTANA CAMASSA.

(*Growers of Flowers for Market should Cultivate a House of this Plant alone.*)

A very desirable shrub, with racemes of double white flowers of Gardenia-like outline and fragrance, which are produced on the point of every shoot. The usual temperature of a hot-house with less humidity, will produce blooms more freely and longer in succession. The petals of the flowers are lighter and more elegantly arranged than the Gardenia, and not quite so large; small plants in three inch pots will produce flowers freely 0 50

APHELANDRA FASCINATOR.

A very fine species, with very ornamental foliage as well as magnificent flowers; the leaves are rich dark green, beautifully banded with silvery white, and underneath of an uniform purplish velvet; the spikes of bloom are very large and of dazzling vermilion color 0 40

PHILODENDRON LINDENIANUM.

Leaves of a delicate satiny green, shaded with metallic olive color on the upper surface, the under part pale green, ornamented with bands of maroon. The young leaves are of a bright chamois color, and the maroon bands of the under parts penetrate through to the upper, so that the coloring of the plants has a glistening and indescribable effect 0 50

*FREESIA LEITCHLINII.

A very pretty Bulbous Plant — begins to grow in the Autumn, and bears in the Spring spikes of cream-colored flowers, with a yellow blotch on each—having the perfume of Primroses 0 50

*YELLOW CALLA.—(CALLA HASTATA.)

An unique plant; its strong robust growth and richly colored lemon-yellow flowers marks it at once with distinctness as a plant for general purposes; the habit is deciduous, requiring a period of rest in mid-winter 0 75

POSOQUERIA LONGIFOLIA.

This plant forms an elegant bush, and is very free flowering. Leaves large, somewhat ovate, coriaceous and shining green; flowers tubular, pure white, produced in large corymbs of a dozen and more, waxy like, from 3 to 4 inches long, and deliciously fragrant 0 50

PAULINIA THALICTRIFOLIA.

A very beautiful plant. It is of a slender growth, producing very freely its beautifully cut leaves, which resemble the fronds of a highly divided Maiden Hair Fern. The matured leaves are of a striking bright green, the young shoots and foliage being of a beautiful rosy tint ..... 25 cts. to 0 50

MACKAYA BELLA.

This most beautiful plant is a native of Natal. The flowers have a pale lilac corolla, nearly two inches long, the throat ornamented with most delicately pencilled reticulated purple veins, tubular below, campanulate. The plant is very floriferous 0 40

ERIOCNEMA MARMOREUM.

Each.

Plant dwarf, with habit of some of the Begonias, leaves green, striped with bands of white; a beautiful plant.....$0 50

NEW CLIMBING HYDRANGEA.—(*Schizophragma Hydrangeoides.*)

This is described as clinging to trees to the height of 50 feet, producing corymbs of white flowers of the size of ordinary Hydrangeas. It clings exactly like Ivy...30 cts. to 0 50

*BRIDGESIA SPICATA.

An evergreen greenhouse creeping shrub, adhering to walls similar to Ivy; beautiful bloomer..... 0 75

**CYANOPHYLLUMS.*

*Magnificum. A grand specimen plant, having large beautiful foliage.....75 cts. to 1 50
*Spectandum. A grand plant with large velvety leaves, and whitish ribs which grow to an immense size and are very attractive. A fine plant for flower shows, fairs, &c., as it makes a beautiful specimen.....50 cts to 1 50
*Assamicum. A very beautiful foliage plant, large fine foliage.....50 cts. to 1 50

*SPHŒROGYNE LATIFOLIA.

A plant with the grandest possible foliage, large, broad and flat, deep green on top, under side cinnamon brown: very hairy leaves and stems; a grand specimen plant. One of the most attractive for exhibition.....$1 00 to 2 00

NEW SALVIAS.

Coccinea Grandiflora, (new.) A very fine Salvia..... 0 25
Splendens Bruantii. A dwarf-growing variety, producing fine large flowers of a velvety-red color..... 0 15
Splendens Hoveyi, (Ianthina.) Habit and general character of *S. splendens*, but with dark blue flowers..... 0 15
Splendens, "Mrs. Stevens." Flowers a deep crimson..... 0 15
Nigrescens. Flowers of a blackish violet and lavender colored calyx..... 0 15
Bethelii, (Involucrata.) Bright rosy pink tipped with white, extra fine..... 0 15
Rutilans. (new.) Magenta flowers, fine..... 0 25
Cacalifolium. Flowers rich blue..... 0 15

NEW ABUTILONS.

Modeste, (new) Bright red, veined with crimson, fine..... 0 25
Ne Plus Ultra, (new.) Rosy crimson, veined light..... 0 25
Chinois, (new) Beautiful orange salmon, large, profuse bloomer..... 0 20
Fire King, (new) Very bright carmine, fine..... 0 20
G. Delaux, (new) Violet carmine, new color, beautiful..... 0 20
La Candeur, (new.) A very beautiful pure white flower..... 0 20
Seraph, (new.) Pure white, a long tubular shaped flower, very fine..... 0 20
William Fowler, (new.) A pretty variety, with bright yellow flowers..... 0 20
Snowstorm, (new.) Pure white, of dwarf compact habit, an excellent variety..... 0 20
Toison d'Or. Color deep bright yellow, a very fine variety..... 0 20
Sellowianum Marmoratum. The leaves of this beautiful variety are very large and ornamental; their color is a golden yellow, richly tessellated with green..... 0 20

NEW EULALIAS.

Japonica Zebrina. The variegation in this lovely grass is across the leaf instead of longitudinally. It grows from 4 to 5 feet in height, is a most strikingly graceful plant. Its flower spikes are equally beautiful and valuable as *E. Japonica*..... 0 50
Japonica Variegata. Leaf long, variegated. The flower stems are from 3 to 4 feet high, very reed-like, and produce loose panicles of flowers; these panicles are hairy and erect until dried, when they become elegantly curled, closely resembling Ichdien feathers..... 0 25

PAMPAS GRASSES.—Gynerium Argenteum.

Each.

Argenteum. The well-known Pampas Grass, with long graceful foliage, which gives forth in autumn its beautiful silvery plumes.....$0 25

*Album Variegata. White variegated Pampas Grass. This beautiful grass has all the grace and elegance of *G. Argenteum*, and flowering quite as freely; add to this its graceful foliage striped with silvery white.....50 cts. to 1 00

*Aurea Variegata. Gold variegated Pampas Grass Another beautiful variety, similar in its graceful habit to the last, but in this the foliage is striped with a deep yellow; a charming variety.....50 cts. to 1 00

*Carmineum Rendatleri. This new Gynerium is a really majestic and very beautiful plant. The pinacles, measuring more than two feet in length, are of a bright carmine rose color; if kept dry in winter, they gradually assume a light violet tint. The habit of this new Gynerium is magnificent.....50 cts to 1 00

*Elegans Niveo-vittatis. Another very elegant Pampas Grass, handsomely variegated, 1 00

*Roseum Variegated. Foliage finely variegated with stripes of rose..... 1 00

*Westerlingi Variegatum. A very beautiful variegated Grass..... 1 00

Monstrosum. Very robust in growth..... 1 00

Stenackeri Variegata..... 1 00

NEW POINSETTIA.

Pulcherrima Plenissima, (new Double Poinsettia.) This magnificent plant is remarkable for its floral bracts, the size of the heads in which they are produced, and their marvellous brilliancy of color. The whole inflorescence is full and rosette-like, and of a most vivid and brilliant scarlet color.....30 cts. to 0 50

Pulcherrima Major. A great improvement on the old species, both in the size of the individual bracts, and also in the far larger heads, which are of a bright scarlet, tinted with violet cerise.....25 cts. to 0 50

Rosea-Carminata. In fine variety, the heads of bracts are larger, smooth, and of a brilliant rosy carmine.....25 cts. to 0 50

DIEFFENBACHIA.

Nobilis. The plant is stocky in habit, and well set with spreading leaves. The leaf stalks are very pale green. The blades are of a deep rich green, marked over the central portion to within about an inch of the margin, with largish angular, irregular and variously confluent white spots, which contrast strongly with the color of the margin and intervening portions. Altogether a strikingly handsome plant of its group..... 1 00

Brasiliensis. A handsome variety, the leaves averaging eighteen inches in length, by eight or nine inches in width; the ground color of the leaf is deep green, and the whole surface is mottled with small blotches of greenish yellow and white. A beautiful plant.....30 cts. to 0 50

Bausei. It is a stocky-growing broad-leaved variety, with yellowish green leaves, which are irregularly edged and blotched with dark green, and also spotted with white, the marking being particularly effective.....30 cts. to 0 50

Bowmanii. Very large bright green leaves, blotched and marked with golden green; a grand specimen plant.....30 cts. to 0 50

Weirii. It is of dwarf habit, the foliage of a bright green color, thickly blotched and spotted with pale yellow. This is one of the finest of the Dieffenbachias...30 cts. to 0 50

Baraquiniana. A fine vigorous plant with white stems, leaves green, spotted and blotched with pure white..... 0 50

Picta. A very beautiful foliage plant, leaves a deep green, mottled with white; beautiful.....30 cts. to 0 50

Eburnea. Distinct and very beautifully marked foliage..... 0 50

MARANTA.

*Lubersi, (new) A very handsome species, foliage reticulated with yellow. Makes a handsome specimen plant..... 1 00

Massangeana. A very distinct dwarf species The variegation consists of three distinct colors. The mid-rib veins and middle portion of the leaf are silvery white, faintly tinged with bluish green, then a broad band of blackish hue, the whole being surrounded by a belt of bright green, margined with a thin line of a lighter shade..... 0 50

Each.

Illustris. A beautiful marked species, with leaves of a rich lustrous green, being a rival to *M. Lindenii* and *M. Veitchii*, assuming the babit of *M. rosea picta* whilst young. Towards maturity the tracery changes to a broader white one within the margin..... 0 50

Regalis. Very beautiful, with fine foliage distinctly and finely marked..... 0 50

Lindenii. Foliage very dark, with a golden feather along its centre. A fine species..... 30 cts. to 0 50

Makoyana. A very ornamental dwarf growing species; leaf-stalks slender reddish purple, blade of the leaf ovate, ground color olive green, beautifully and regularly blotched with creamy yellow, of a transparent character; on each side the mid-rib are oblong dark green blotches, whilst the under side is rosy red..... 30 cts. to 0 50

Tubispatha. An elegant and very attractive species of erect habit of growth; leaves some 9 or 10 inches long, light green, ornamented on each side the mid-rib with oblong blotches of cinnamon brown..... 30 cts. to 0 50

Veitchii. The leaves of this grand plant are upwards of twelve inches in length; "the under surface of a rich purplish wine color. the upper of a deep, shining green, blotched with conspicuous patches along each side, of a yellowish green, almost verging on grey. The contrast is very marked, and the whole plant very beautiful."..... 50 cts. to 1 00

Porteanna. This is a vigorous growing species, with fine large foliage feathered with white..... 0 30

Virginalis. Fine broad foliage, mid-rib has a broad band of white; a very fine plant. 0 50

Van Den Heckei. Leaves dark satin-like, embellished by a large central line, surrounded by a silver disc..... 0 30

Bicolor. Deep green marked with dark brown..... 0 30

Princeps. This plant attains a height of from three to four feet, the blade of each leaf measuring upwards of a foot in length; centre dark metallic green, margined with light green..... 0 50

	Each.

PANDANUS.—Screw Pine.

Javanica Variegata. This variegated Screw Pine is well known as one of the finest decorative plants; leaves green, with broad stripes of pure white, gracefully curved. Very beautiful..... 50 cts. to 1 00

Utilis. Screw Pine; very fine decorative plant, with recurved graceful foliage, 25 cts. to 1 00

Veitchii. This splendidly variegated Screw Pine is one of the most attractive plants. The leaves, which are of a light green color, beautifully marked with broad stripes and bands of pure white are most gracefully curved, which elegant habit of growth renders the plant extremely effective..... 50 cts. to 1 00

Graminiformis. This has narrow light green foliage, a pretty, graceful species..... 0 50

FICUS.—India Rubber Tree.

Elastica. India Rubber Plant. Fine large shining foliage; fine for bedding..... 0 50

Macrocarpa. A free growing shrub, with smooth terete stems and thin coriaceous glossy ovate-oblong entire leaves, five to six inches long and three inches broad..... 0 50

Macrophylla. (*Artocarpus imperialis.*) A robust vigorous grower with immense foliage..... 0 50

Parcelii. A splendid decorative plant with beautifully variegated foliage. The leaves, which are of large size. thin texture and coarsely serrated on the margins, are of a bright green color, profusely but irregularly blotched with creamy white and dark green..... 0 50

Australis. Foliage, a pretty ornamental plant..... 0 30

Lucida. Leaves bright green, shining..... 0 30

PHORMIUM.—New Zealand Flax.

Each.

*Atropurpureum. A very desirable species; habit the same as *P. tenax;* leaves reddish purple. This makes a distinct decorative plant for the conservatory, and a fine subject for the sub tropical garden. A distinct and beautiful plant.....

*Colensoi Variegatum. This beautiful plant has fine broad erect pointed dark green leaves, elegantly banded at the margin with one or sometimes with two conspicuous stripes of creamy white. It has the same mode of growth as *P. tenax*, but is altogether distinct, while its more erect habit gives it quite a distinct appearance..$1 to 2 00

*Cooki Variegatum. An elegant, somewhat dwarf growing plant; leaves green, beautifully striped with golden yellow. Native of New Zealand.....

*Veitchii Variegatum This is a finely variegated form of the well known New Zealand Flax. The leaves are of the same size as the species, with conspicuous broad stripes of creamy white running out their whole length, and contrasting well with the light shining green ground color. It is a truly noble plant..... $1 to 2 00

*Purpurea Fol Nigra Marginata. A distinct form of New Zealand Flax, with purplish green leaves, margined with black.....

YUCCA.

Aloëfolia Variegata. We received a special premium for a fine specimen of this plant from the Maryland Horticultural Society. Leaves green, broadly striped and banded with yellow; a beautiful variegated plant .....75 cts. to 1 50

*Quadricolor. The foliage of this is long, recurved and beautifully variegated. A very fine plant..... 1 50

DIPLADENIA, (Echites.)

*Williamsii. A splendid hybrid. Color soft pink or rosy crimson; it is very profuse; flowers produced in large clusters, the raceme continuing to grow and produce a succession of blooms—a marked and desirable character in this variety. Its prolific blooming qualities will render it a most desirable plant..... 1 00

Amœna. Flowers of a soft pink color, suffused with rose, somewhat resembling *D. Splendens*, but in every respect a great improvement on that variety, being of superior form, the lobes being stiff and round, instead of reflex and pointed. For summer blooming in the green house, no climber is more lovely than this 0 50

*Boliviensis. A very free flowering white Dipladenia. It is very compact, producing an abundance of flowers in a much smaller state than almost any other species. The foliage is medium in size, and of a light glossy green color. The flowers *pure white*, with a distinct yellow centre..... 1 00

*Hybrida. A very floriferous variety; flowers resembling *D. insignis*, both in color and form, but are produced in much greater profusion..... 1 00

JASMINUM, SAMBACK, (Arabian Jasmine.)

Duchess d'Orleans. Flowers double, white, like miniature white roses, deliciously fragrant, a very valuable plant..... 0 25

Grand Duke. Flowers double, white, like miniature white roses, deliciously fragrant, similar to the above, but distinct..... 0 25

Grand Duchesse de Tuscany. Flowers double, white, like miniature roses, deliciously fragrant, in the style of the two preceding; very fine..... 0 30

Trifoliata. Another fine variety, flowers white, like miniature roses, deliciously fragrant, 0 30

Hirsutum, (single.) A very free flowering winter blooming species.....25 cts. to 0 50

No plants can be more beautiful or fragrant than those blooming freely through the summer. All who grow choice plants should possess them.

IXORAS.

Regina. It is of compact habit, and the flowers are of a deep shade of color; the trusses are of a somewhat similar shape to those of *I. coccinea*, but the plant is much more compact in growth than that variety. It is a most superb plant..... 0 50

Each.

*Prince of Orange. This variety is distinct in color from any other, and is a valuable addition to this ornamental genus. It is of free compact habit, flowers rich orange red, tinged with violet towards the centre, and produced in large and dense terminal corymbs.....$0 75

*Fraseri. A most effective and beautiful variety, of free and vigorous growth, with rich dark green foliage, and numerous large, terminal, globular flower heads, with blossoms of a brilliant flamed salmon color, upon carmine scarlet flower tubes, and rich under pedicels or flower stalks..... 0 75

Amabilis. Of vigorous and compact habit, deep orange salmon, well formed flowers, borne in large trusses, which are produced in great profusion..... 0 50

*Colei. A cross between *I. Coccinea* and *I. Alba*, having the strong, free, robust habit and large foliage of the former, and the pure white flowers of the latter..... 1 00

*Williamsii. It is a free growing plant and an abundant bloomer, producing immense trusses of large flowers, of a very distinct and pleasing shade of reddish salmon. It is one of the very best varieties in cultivation..... 0 75

Coccinea Superba. A beautiful variety, with very large heads of brilliant orange scarlet flowers, produced freely..... 0 50

Crocata. Deep orange, free grower, and profuse bloomer..... 0 50

ALLAMANDA.

Hendersonii or Wardleiana. A distinct and beautiful species which blooms quite small and continues flowering nearly the whole year; the flowers are circular, of great substance, color of a rich deep yellow, fine habit.....25 cts. to 0 50

Nobilis. A distinct and beautiful new species, flowers equally as large as the finest forms of *A. Hendersonii*, of a pure rich yellow, but which are greatly superior in form to others in cultivation, by their large firm lobes being more widely imbricated.....25 cts. to 0 50

CLERODENDRONS.

Balfouri. A beautiful climbing species, which blooms profusely on the young wood, flowers scarlet and white..... 0 25

Thompsonii. A very beautiful climbing stove plant, with crimson flowers, free, vigorous grower and profuse bloomer..... 0 25

Speciosum. This beautiful plant forms a fine intermediate variety between *C. Splendens* and *C. Balfouri*, rich rose or violet tinted crimson..... 0 30

Coronaria. A very desirable plant, flowers double, white, very fragrant, fine for bedding out..... 0 25

Clerodendron Viscossissima. This is a handsome hardy shrub from Northern China, the flowers emit a delicious perfume; flowers lilac rose, in dense terminal corymbs, a very desirable new shrub..... 0 50

CALLIPHRURIA SUBEDENTATA.

This is a very beautiful free flowering plant; flowers pure white, fragrant, similar to *E. Amazonica*.....25 cts. to 0 50

EUCHARIS—Amazonian Lily.

Amazonica. Large pure white fragrant flowers, full four inches in diameter, and are produced in abundance on strong plants.....25 cts. to 0 50

Grandiflora. Large, pure white, very fragrant.....25 cts. to 0 50

*Candida. A very beautiful and rare species, flowers pure white..... 1 00

ANTIGONON LEPTOTUS.

A beautiful plant of climbing habit, with numerous racemes of rose colored flowers, showing a still richer tint in the centre. The profusion of its bloom is such as to give the resemblance of Roses at a distance, hence one of the Mexican names is "*Rosa de Montana*," or Mountain Rose. Described by its discoverer as the most beautiful climber he had ever beheld..... 0 40

CHOISYA TERNATA.

Each.

This is a free growing and beautiful plant. nearly or quite hardy, a profuse bloomer, pure white sweet scented flowers, like orange blossoms. This plant will be largely forced for its flowers, like Deutzia Gracilis.....$0 50

IMATOPHYLLUM MINIATUM.

A very excellent evergreen, warm greenhouse or cool stove plant, intermediate between *Clivia* and *Vallotta* or *Amaryllis*, in style of growth, with dark green leaves and large corymbs of erect, large, clear rich salmon or light flame colored cup-like blossoms..... 0 75

LASIANDRA MACRANTHA FLORIBUNDA.

A magnificent plant of good habit and a most profuse bloomer; the flowers are rich violet blue, between five and six inches in diameter. and produced nearly all the year through. It requires the same treatment as *Pleroma Elegans*.. .. ..30 cts. to 0 50

RUELLIA MACRANTHA.

A Brazilian plant. Flowers freely of a fine violet-carmine, a pleasing color. This plant is of free growth in a warm house, flowering profusely and showy. One of the very finest winter blooming plants of recent introduction..... 0 30

PANAX FRUTICOSUM.

A plant closely allied to Aralia, with beautiful fern-like foliage; a fine decorative plant, 0 30

STEPHANOTHUS FLORIBUNDA.

This plant is not new, but as a valuable stove climber it is unequalled. The flowers are pure white, of a waxy texture, very persistent. Some large plants in one of my greenhouses were covered with bloom the whole of the past spring and summer. .....25 cts. to 0 50

TABERNÆMONTANA CAMELLIFLORA PLENO.—*Glorie of the Day.*

This plant is not new, but it is not cultivated to the extent it deserves; it succeeds well bedded out during summer, giving its lovely double fragrant flowers of the purest white in great profusion, excellent for bouquets, &c..... 0 25

COPROSMA BAUERIANA PICTURATA.

The leaves are ovate and bluntly rounded, and they have a smooth surface of a pale green, marked with blotches of pale yellow and creamy-white, spreading out from the mid-rib on one or both sides, and assuming a variety of grotesque forms..... 0 30

CURCULIGO RECURVATA.

A remarkably graceful Palm-like plant, suitable for decorative purposes.....25 cts. to 0 50

PARIS DAISY OR MARGUERITE. (Chrysanthemum Frutescens.)

Alice Crousse. "Very large white flowers, pure white with rich golden centre.".. .... 0 30
Etoile d'Or. Golden yellow—very rich and fine..... 0 25
Frutescens. White..... 0 25

NEW DOUBLE TROPŒOLUMS.

Hermann Grasshoff. "Flowers very large and double, of a rich deep carmine-red, blooming most profusely; this is one of the finest plants for vases, baskets and beds."..... 0 25
Majus. "Immense deep chrome-yellow flowers of a stronger habit than the preceding."... 0 25

ALOCACIA.

Each.

Alba Violacea. Stems blue, striped white, large foliage $0 25
Marshalli. The leaves are a bright green, marked between the principal veins with broad wedge shaped blotches of blackish purple 0 25
Jenningsii. A delicate green, heavy blotches of black, which are remarkably precise in outline and arrangement 0 25
Bataviensis. Foliage and stems dark purple 0 25
Auriculata 0 25
Javinica. Beautiful green 0 25

This class of Alocacias bed out finely.

NEW TUBEROUS-ROOTED BEGONIAS.—Single Flowered.

The following novel and beautiful varieties will be found admirably adapted for the summer and autumn decoration of the greenhouse and conservatory; for they produce in the utmost profusion magnificent flowers of very large size, and great variety in color. They do not require stove cultivation, but will succeed well in a greenhouse. The tubers rest during the winter months, similar to Gloxinias, and can be easily re-started into growth in the spring. Their profuse flowering quality, and the charming variety of color of their blossoms, render them extremely showy and effective.

Each.

Davisii. It is a native of the Andes of Peru. It is of the dwarfest habit, the leaves and flowers all springing from the root stock. The scapes, which rise erect above an elegant bluish green foliage, are bright red; each scape bears three dazzling scarlet flowers 1 00

Elegans. Color a scarlet carmine, flowers and trusses of immense size..... 0 25

Laura. Bright pink..... 0 25

Jasminoides. A beautiful species in the way of *B. Longiflora*, with larger terminal and auxiliary racemes of equally fragrant snow white flowers..... 0 25

Davidsonii or Vreelandi. The finest of all white *Bouvardias*, and of the free growth of its parent *Hogarth*..... 0 25

Rosalinda. Bright rose, large and fine..... 0 25

Rosea Multiflora. Of free growth and profuse flowering, color bright rose..... 0 25

DRACÆNA.—Dragon Tree.

Our rich collection of Dracænas has been awarded the first premium by the Maryland Horticultural Society for several years, and first premium at the "Cincinnati Exposition." For decorative purposes these plants are now extensively grown, their broad dark tropical foliage and graceful habit render them very appropriate.

Each.

*Laingi, (new.) The leaves are from 8 to 10 inches long and from 2 to 2½ inches broad. The latest formed are pale green with broad bands and margins of creamy white faintly tinged with rose. The older leaves are deeper green bordered with crimson and white; the wings of the footstalks of the leaves are also crimson.....$2 50

*Superba. This is, without doubt, the most slender and graceful growing variety ever offered. For table decoration and pot culture it is unsurpassed. The leaves are pendulous, arching, from 12 to 18 inches long, from 1 to 1½ inches broad, linear lanceolate, dark bronzy green, margined and striped with bright crimson. The young leaves are rosy crimson..... 2 00

*Princess Margaret. A very fine variety. The leaves with their foot-stalks are about eighteen inches in length. When first expanded they are creamy white, slightly shaded with green of a tint quite unlike any other Dracæna in cultivation, with a few oblique stripes of deep green, with a pale crimson mid-rib. The light colored portions of the leaf become suffused with delicate rose.....75 cts. to 1 50

*Dracæna Frederici. It has a compact, yet graceful habit of vigorous growth. Its leaves assume a rich rosy crimson color, and is a grand decorative plant. One of the most valuable, as it colors beautifully in a small state.....75 cts. to 1 50

*Macarthuri. Of very compact growth and bright colored foliage. They are very elegant both in form and coloring, the latter being especially brilliant and attractive, rendering this variety one of the most distinct in cultivation.....75 cts. to 1 00

*Rosea-picta. A plant of robust habit and bold aspect. The leaves are beautifully colored with a delicate rose tint which deepens by age to a bright carmine, finely contrasting with the ground color, which is a deep olive green.....75 cts. to 1 00

*Terminalis Alba. This is *D. terminalis*, but with white variegation. The ground color bright green with bold pure white variegation, the upper leaves being white, in some cases large sectional patches are colored white, while leaf-stalks are also edged with white, colors very early.....75 cts. to 1 50

Each.

*Bausei. Leaves recurved, dark bronze, the margin crimson, narrow in the lower leaves, becoming broader and more developed on the upper ones, the youngest and uppermost being broadly and brilliantly edged with deep rose.....75 cts. to 1 50

*Taylori. Of very stout habit, a hybrid between *D. magnifica* and *Mooreana*, dwarf and dense. Leaves very broad ovate-oblong, erect, with reddish stalks, having something the aspect of those of *D Fraseri*..... 75 cts. to 1 00

*Wisemanii. A handsome stove shrub, with the leaves of a bronzy hue, red at the margins, and breaking out into white in the younger growth.....75 cts to 1 00

*Robinsoniana. The ground color is a light olive green, very much striped with bands of bronzy crimson and greenish white; the petioles are margined with crimson..... 75 cts to 1 50

*Elegantissima. The leaves are of a deep bronze, with a metallic lustre, and very distinctly margined with bright crimson, in the young leaves crimson of a lighter shade entirely predominates.....50 cts. to 1 00

*Speciosa. The leaves are broadly striped or margined with a yellowish creamy white, stained and edged with light rosy pink; the ground color is a rather light but pleasing olive green.....50 cts. to 1 00

*Hybrida. The older leaves are of a deep green color, margined with bright rose; as the plant attains age, the latter formed leaves become entirely suffused with deep rose and creamy white, the foot-stalks being also of deep rose.....50 cts. to 1 00

Mooreana. The habit is compact and especially suitable for decorative purposes. The base of the leaf-stalk and the mid-rib are of a bright reddish crimson color, which, in the leaf itself, changes to a glossy bronze.....50 cts. to 1 00

Amabilis. This is a magnificent variety. The ground color of the leaf is bright glossy green, becoming beautifully marked and suffused with pink and creamy white, the young leaves being occasionally of quite a rosy color.....50 cts. to 1 00

Baptistii. The leaves are green, 1 to 1½ foot long, four inches broad, margined and irregularly and obliquely striped with narrowish creamy white flakes, passing through pale pink to deep rose.....50 cts. to 1 00

Excelsa. Large leaves of an erect arching habit and of a deep bronzy hue, margined with deep magenta crimson. This bright color is continued throughout the edge of the leaf, breaks out into streaks and patches.....50 cts. to 1 00

Fraseri. Leaves margined with bright rosy lake. The principal part of the leaf is of a blackish purple with a glaucous bloom, a marginal stripe of deep magenta runs down into the edge of the petiole.....50 cts. to 1 00

Grandis. The leaf is of a shaded deep green, broadly edged near the base with blush white, the extreme margin being of a deep magenta rose.....50 cts. to 1 00

Guilfoylei. A most superb species. The ground color is bright green; fully one half the leaf, however, is striped with white and bright rosy red, the latter color mostly forming the border in addition.....50 cts to 1 00

Magnifica. This is a very handsome plant; leaves nearly two feet in length and eight inches in breadth, when the plant is well grown. The foot-stalks are reddish purple, and the leaves are rich bronzy brown suffused with pink.....50 cts. to 1 00

Metallica. The leaves are sixteen inches long These, together with the sheathing leaf-stalks, are of a uniform rich coppery purplish hue when young, becoming a dark purplish bronze when mature.....50 cts to 1 00

Nigro-Rubra. An exceedingly beautiful plant; leaves upwards of eighteen inches in length, ground color rich brown, the centre crimson, shaded with rose.....50 cts. to 1 00

Regina. This is a plant producing very large and broad leaves, the ground color is bright green, but fully one-half of the leaf is variegated with creamy white.....50 cts. to 1 00

Shepherdii. This takes on its distinctive coloring gradually on the older leaves, the young ones being green, and showing paler green stripes on those parts which take on at a later period the peculiar bronzy orange hue. It is very free growing.....50 cts. to 1 00

Splendens. The color is a deep bronzy green, breaking out in the young growth into bright rosy carmine. The brighter coloring appears sometimes in stripes, and sometimes occupies the whole surface.....50 cts. to 1 00

Imperialis. The variegation is in this case of clear white combined with deep rose, and is most effective. The color is a deep green, breaking out freely in the young leaves into white..... 50 cts. to 1 00

Macleayi. Leaves are some eighteen inches long and about four inches wide, of a rich metallic bronze. It is very distinct in habit and color.....50 cts. to 1 00

Porphyrophylla. A noble stove shrub of erect habit, with bold broadly oblong leaves of a fine deep bronzy green color, having a glaucous bloom on the under surface.....30 cts. to 0 50

Braziliensis. A robust growing species, with large, broad green foliage..... 0 50

Each.

Cooperii. Foliage gracefully recurved, rich crimson.....25 cts. to 0 50
Charlwoodia Serratifolia. Foliage green, erect .....25 cts. to 0 50
Ensifolia, (Dianella Ensifolia.) Foliage green, fine window plant..... 0 50
Elegans Rubra..... 0 50
Ferrea. Foliage broad dark crimson .....30 cts. to 0 50
Haageana. A very distinct variety, with green foliage.....30 cts. to 0 50
Nigrescens. Foliage very dark, blackish brown, a very distinct variety..... 0 50
Spectabilis. Foliage long green, very graceful.....25 cts. to 0 50
Terminalis. Foliage bright crimson.....25 cts. to 0 50
Terminalis Stricta. A variety with brilliant foliage .....30 cts. to 0 50

Specimens and half specimens of all can be supplied during summer and autumn, suitable for exhibiting at Fairs, Flower Shows, &c , *at moderate prices.*

CORDYLINE.

Australis. A very long, narrow, graceful foliage.....25 cts. to 0 50
Indivisa. Long, narrow, graceful foliage.....25 cts. to 0 50

Australian plants of much grace and beauty, admirable for vases, single specimens on lawns, &c.

CROTON.—(Codiæum.)

These ornamental plants are natives of the South Sea Islands; they are among the most beautiful of variegated plants, the leaves being blotched with yellow and red in various ways, which renders them most attractive and valuable for decorative purposes. They are of the easiest culture, succeeding in any warm greenhouse.

Our rich collection of Crotons has been awarded the leading prizes by the Maryland Horticultural Society for some years, and first premium at the Cincinnati Exposition.

Each.

Aurea-Maculatus. A small leaved variety of very neat and compact habit. The leaves are ovate-oblong, not more than 3 inches long and 1½ inches broad, deep but bright green, profusely spotted with golden yellow. It is quite distinct.....25 cts. to $0 50

Nobilis. A beautiful variety with long pendulous leaves, richly colored with many tints. The colors are crimson, yellow, and green in many shades, the crimson being predominant in the stems, footstalks of the leaves and mid-ribs, where it is bordered by bands of deep golden yellow .....25 cts. to 0 50

Mooreanus. The color and markings of the foliage are rich and distinct. The mid-rib and margin of the leaf are of a clear orange yellow, with the blade crossed with parallel bands and stripes of the same color upon a deep green ground.....25 cts. to 0 50

Andreana. A variety of neat habit and free growth. The foliage colors in the most exquisite manner. One of the most beautiful of Crotons.....50 cts. to 1 00

Disraeli. In the newer leaves the mid-rib and margin of a light yellow. As the foliage becomes older the yellow subsides to a bright orange yellow. In the mature leaves the margin is a bright scarlet, and the mid-rib is striped by a band of the same bright color between two lines of a deep golden yellow .....25 cts. to 0 50

Bismarcki. The color is a deep green, with a broad band of golden yellow along the costa, and yellow markings indicating the course of the lateral veins, in addition to which a few slight yellow blotches are scattered over the surface.....25 cts. to 0 50

Johannis. The leaves are from twenty to twenty-four inches long, narrow and pendulous, ground color bright shining green, the margins and mid-rib bright orange yellow, a beautiful variety.....50 cts. to 1 00

Irregulare. Leaves broadest at the base and tapering to an obtuse point, about 9 inches long, and most diversified in shape, scarcely two leaves resembling each other; ground color dark green, mid-rib orange yellow, with the upper surface of the leaf irregularly spotted and blotched with yellow.....25 cts. to 0 50

Lord Cairns. This has trilobate leaves. The color of the foliage is a bright green, the mid ribs of the leaves a light yellow, blotched and spotted with the same color, the spots and blotches being irregularly scattered over the surface.....25 cts. to 0 50

Majesticum. A truly grand variety, leaves from twelve to eighteen inches long, somewhat narrow; when young the leaves are dark green, ribbed with golden yellow, the green changing with age into a deep olive and the yellow becomes crimson..... 0 50

Multicolor. Leaves irregular in shape, contracted in the centre and twisted at the point, light green blotched with yellow, but changing to glossy green blotched with yellow, reddish yellow and red, the mid-rib crimson.....25 cts. to 0 50

Each.

Spirale. The spiral leaves render it most distinct, they are from nine to twelve inches in length and pendulous; in a young state, the ground color is deep green, striped up the centre with a broad band of golden yellow; with age they change to a deep bronzy green.....30 cts. to 0 50

Tortilis. A remarkably fine variety with twisted foliage, very distinct. The mid-rib of each leaf grows in a spiral from the base to the point The ground color is of a deep olive green, the mid ribs of the mature leaves bright crimson, bordered on each side with a line of deep yellow.....30 cts. to 0 50

Volutum. The leaves being rolled up from the end in a volute, after the manner of the curving of a ram's horn. The ground color is deep green, a golden bar runs down the centre, from which yellow veins diverge at about half-inch intervals, and meet near to, and so as to coalesce with the golden margin.....25 cts. to 0 50

Veitchii. A splendid variety. The leaves attain a length of twelve to fourteen inches, and two-and-a-half inches in breath, and are traversed by broad bands of creamy yellow, which change with age into rose and carmine purple.....25 cts. to 0 50

Undulatum. The edges of the leaves beautifully undulated and wavy, and the variegation consisting of numerous markings and blotches, which in the matured leaves are of the brightest crimson on a dark green ground, and in the young leaves, at first yellow.....25 cts to 0 50

Weismannii. This is one of the most beautiful of all the forms; leaves about a foot long and three-fourths of an inch wide; ground color shining bright green striped and mottled with golden yellow.....25 cts. to 0 50

Chrysophyllum. At the upper ends of the shoots they appear to be almost entirely golden. The upper leaves are shorter than the lower, somewhat wavy-edged and occasionally about once twisted; the petioles are red.....25 cts. to 0 50

Bicornutum. This is a curious and handsome variety; leaves irregular in shape, dark green, blotched and spotted with yellow, and having a horn-like extension of the mid-rib, which has given rise to its name.....30 cts. to 0 50

Youngii. This magnificent Croton is of noble and graceful habit; the leaves are of great substance, from 1½ to 2 feet in length, deep red underneath, while the upper surface is dark green, densely blotched and suffused with creamy yellow, and bright rosy red.....30 cts. to 0 50

Interruptum. Very long leaves, nearly an inch broad, mid-rib bright scarlet, shading to a golden yellow; an exceedingly graceful plant.....25 cts. to 0 50

Longifolium. Leaves green, blotched and striped with golden yellow, very long and graceful; a magnificent plant.....25 cts. to 0 50

Picta. Foliage dark green, spotted with red and yellow.....25 cts, to 0 50

Variegatum. Leaves dark green, blotched and spotted with golden yellow....25 cts. to 0 50

Variegatum Rubrum. Leaves dark green, striped and spotted with red and golden yellow.....25 cts. to 0 50

Elegans.....25 cts. to 0 50

Specimen and half specimen plants of all can be supplied during summer and autumn, suitable for exhibiting, at moderate prices.

Indica Rosea. Rose or pink, the variety generally grown..... 0 25
Indica Purpurea. A bright purple, a vigorous grower and free bloomer..... 0 25
Indica Magenta. Color a bright magenta..... 0 25
Indica New Crimson. Bright deep crimson, no variety hitherto introduced approaching it in color; a profuse bloomer, giving immense heads of its rich flowers..... 0 25

The Crape Myrtle is well-known in this latitude and South as our most beautiful summer flowering hardy shrub. North, it will need protection.

PUNICA.—Pomegranate.

Nana. It blooms freely in a small state, and larger specimens are sheets of bloom. It is highly recommended for bedding purposes, being a profuse bloomer and exceedingly desirable from its rich color, brilliant orange scarlet..... 0 25

	Each.
Nana Improved	$0 50
Alba Pleno. Double white	0 25
Rubra Pleno. Double red	0 25
Rubra Prolifera. A profuse flowerer	0 25
Legrelliæ Pleno. Reddish yellow bordered with white, very double, splendid	0 25

NEW and RARE HARDY TREES and SHRUBS.

Abelia Rupestris. A dwarf compact shrub, flowers pure white in long racemes during summer and fall; a beautiful shrub, quite hardy 0 25

Andromeda Arborea, (or Oxydendron.)—*Sorrel Tree.* A rare American small tree, known in Europe as Lily-of-the-Valley Tree, from the resemblance of its bloom to that lovely flower 0 50

*Azalea Ghent, in varieties finest seedlings 1 00

Acer polymorphum. Dwarf Japanese maple 0 50

* Atropurpureum. Foliage deep purple shaded with claret; a beautiful variety 1 50

* Dissectum. Foliage similar to the above but deeply cut 1 50

* Rosea Pictis. Foliage deeply and finely cut 1 50

* Reticulatum. Deeply lobed leaves, reticulated with white and yellow 1 50

* Rosea Marginatus. Leaves tipped and edged with rose 1 50

* Sanguineum. Blood leaved, deeply lobed, leaves a rich colored and very beautiful maple 1 50

* Japonicum. Of slow compact growth, with large leaves. A very distinct and handsome species 1 50

* Castœnifolia. A very distinct and handsome maple 2 00

Aralia Sieboldi. A very handsome evergreen with large shining green leaves, nearly or quite hardy. A fine decorative plant ..... 25 cts. to 0 50

Callicarpa Purpurea. A pretty berry-bearing shrub. It blooms in August; these are succeeded by a crop of small berries, which are of a bright lilac purple, and which continues up to winter. The plant is quite hardy 0 30

*Carpenteria Californica. This is an extremely rare shrub even in its native habitat. It is a handsome shrub, the flowers being large pure white, with yellow tipped stamens. The leaves are broadly lance shaped, of thick texture, with recurved margins; it grows from six feet to fifteen feet in height and is very bushy. One of the most valuable shrubs which have been introduced for years. "A great acquisition"—*Garden.* (See cut.) 1 00

*Ceanothus. Two or three species, natives of California, are the parents of these beautiful varieties which have of late been increased into many varieties in Europe, where they are regarded as among the most beautiful of bedding plants.

Gloire de Versailles. Long spikes of beautiful azure flowers 0 50

Iris. In the style of the last, very beautiful 0 50

Marie Simon. Large spikes of rosy carmine 0 50

Ether. Large spikes of lilac flowers 0 50

Aerostat. Immense spikes of delicate violet 0 75

Scepter Azur. Long spikes of azure blue 0 50

Cedrela Sinensis. A very beautiful hardy tree of rapid growth, from north of China, with large foliage similar to Ailanthus, and yellowish bark. This is a very handsome new tree, very desirable for gardens, lawns, cemeteries, &c., its fine large shining foliage being most distinct, and the tree, withal, perfectly hardy 0 50

Cratægus Lalændi. A variety of Pyracantha, much superior to the type, has deeper colored berries and a more compact and better habit 0 30

Coculus Carolinianus. A rapid growing climber, perfectly hardy. It produces racemes of vivid scarlet berries which hang on the vines all winter 0 30

Desmodiums Japonicum. A pretty dwarf Japanese shrub, which is quite hardy. "Its drooping branches are entirely hidden by millions of its white flowers, which are freely produced from August to beginning of winter." 0 25

Penduliflorum. Similar to the last, with purple flowers 0 25

Dimorphanthus Mandchuricus. This noble deciduous shrub has been introduced from Mandchuria, and, therefore, is perfectly hardy. Its handsome multifid leaves are about a yard in length, and as much in breadth, similar to Aralia Japonica 0 50

*Gelsemium Sempervirens pleno. Double flowered Carolina Jesamine, an exceedingly beautiful climber; rich yellow flowers 1 00

Each.

Hypericum Patulum. "This magnificent hardy evergreen flowering shrub is a grand acquisition. Its individual flowers, which are produced in bunches, are pale yellow and of great substance, resembling much in appearance the beautiful Gardenia Javinica "..... $0 25

Idesia Polycarpa. A very beautiful new Japanese tree. The flowers, which are of a yellowish green, spring from the axils of the upper leaves in long gracefully drooping branched racemes. They are deliciously fragrant, their color resembling that of a Vanda. These are followed by numerous orange berries, about as large as a small cherry. Tree quite hardy..... 0 50

Ligustrum Japonicum Tricolor. A very fine variegated shrub, centre of leaf green, broadly margined with silver..... 0 40

*Menziesia polifolia Alba. White flowered Irish Heath. A very beautiful dwarf shrub, quite hardy..... 0 50

*Muhlenbeckia Complexa. An exceedingly pretty trailing plant, with small round leaves thickly set upon the branches, having very much the appearance of Maiden Hair Fern..... 0 75

Neviusia Alabamensis. "Snow Wreath." A new native shrub of great beauty. "It occurred in thickets under a long escarpment of rock, and when in full bloom looked like a snow wreath. In its native place it had a southern exposure at the base of a high cliff, and at an elevation above the tops of the trees below; at that place I have seen virgate wreaths of it three feet long covered with bloom "..... 0 75

*Philodendron Amurensis. A pretty medium-sized tree from the Amour, with a straight stem and dense head and long pinnated foliage, produces the Siberian Cork. "This is just now (November) a beautiful object in my garden. My specimen tree is about 12 feet in height, and has a tall pyramidal crown of from 3 to 6 feet. The form of its foliage, which is deeply lobed, gives it a singular appearance, and the coloration of the leaves, which are bright red, is very fine. It retains its foliage very late.—*Max Leichtlin*..... 0 75

Pæonia Moutan Banksiœ. Double Chinese Tree Pœony. A magnificent flowering shrub, quite hardy..... 50 cts. to 1 00

Pyrus Maulei. This desirable new fruit has been introduced into England from Japan. It is allied to the Japanese Quince. The fruit is of the size of a moderate Quince, of a bright apricot color, and makes a rich conserve. The flowers, which are produced in great profusion, are of a most brilliant orange scarlet color. It is one of the most beautiful flowering trees of recent introduction, as well as a valuable fruit..... Small plants, 0 50

Japonica Alba Semi-pleno. Semi-double white Japan Pyrus 0 50

Rhododendron Catawbiense. Finest seedlings, 1 to 2 feet..... 1 00

Maxima. Large leaved, 1 to 2 feet..... 1 00

Punctatum 1 00

Stauntonia Hexaphylla. A beautiful new climbing plant from Japan, perfectly hardy, of very rapid growth and fine large foliage..... 0 50

Styrax Japonica. This is one of the finest hardy shrubs of recent introduction. It is of vigorous compact growth; blooms early and most profusely; the plants are sheets of bloom, which are pure white, most charming, admirably adapted for cemeteries 0 25

*Syringa.—(*Lilac.*) Hyacinthiflora pleno A magnificent double flowered lilac—large thyrse of rich double lilac flowers..... 1 00

*Lemoinei pleno. Another magnificent double flowered Lilac, with immense thyrses of delicate rose colored flowers, a grand and exceedingly beautiful plant..... 1 00

*Rubella pleno. Immense thyrse of double mauve-colored flowers; a grand variety; ready in April..... 1 50

Wiegelia Incarnata. A beautiful bright colored variety..... 0 25

John Standish. Large flowers of purplish crimson..... 0 25

Ed. André. A very beautiful new variety, interior of flower purple, exterior very dark blackish purple..... 0 25

*August Wilhelm, (new.) Rosy amaranth..... 0 50

*Candida, (new) The finest and purest white..... 0 50

*Zanthocercis Sorbifolia. This one of the most beautiful hardy shrubs which have been introduced for years. It is a native of central China. It is a shrub or small tree, not attaining over ten or twelve feet in height and bushy. The flowers expand during April at the same time as the leaves, and are disposed in racemes which attain a height of eight inches, and sometimes more. They are white, having a slight fleshy tint and reddish copper colored at the base, shading off to a purple violet. This lovely shrub is perfectly hardy..... 1 00

CLEMATIS.

Among the most beautiful of climbing plants are the Clematis—whether trained over lattice work, on pillars, or trailing on the ground. There can now be found among them great variety of colors; all are profuse bloomers and quite hardy.

Class I.

PERPETUALS, Summer and Autumn bloomers flowering on shoots of the same year's growth, raised between Lanuginosa and Viticella, except the three first named.

	Each.
Coccinea. A native Southern species, quite hardy, flowers small, bright scarlet; a very interesting plant	$0 30
Flammula. Sweet scented, the flowers are small, pure white and fragrant	0 25
Graveolens. A very distinct species, of rapid growth, a most profuse bloomer, color yellow—very distinct, quite hardy	0 25
Montana. A Himalayan species, flowers white	0 50
Alexandra. Large flower, color reddish violet, blooms finely through the summer	0 50
*Alba Magna, (new.) Large, pure white flowers; a magnificent Clematis	1 00
Ascotiensis. The flowers containing six petals each, color a fine azure blue; it is a most profuse bloomer	0 50
Aureliana. Flowers large and of a lively porcelain blue	0 50
Atropurpurea. Large and intense crimson blue	0 30
Duke of Edinburg. This is a fine variety, flowers large, six-sepaled, of a rich violet purple. One of the most attractive	0 50
Fulgens. Violet purple, with a reddish band through the centre of each petal	0 40
Gem. A most profuse bloomer, continuing in full beauty late into the autumn, flowers large, a most intense rich blue	0 50
Henryi. A magnificent large white flower; a free grower and most profuse bloomer	0 50
Jackmanii. A lovely hardy climber, with large flowers of a deep purple light violet; a profuse bloomer	0 50
Jean d'Arc. Flowers white, large and perfect, with three pale blue stripes on each petal. The plant is of vigorous habit	0 40
Lady Caroline Neville. Color delicate blush white, with a broad purplish band in the centre of each petal	0 50
Lanuginosa. A beautiful species, with light azure flowers, which form an admirable contrast to the others	0 40
Lanuginosa Nivea. A variety of the last, with large white flowers, a very fine and distinct sort	0 50
Lawsoniana. A large and very fine flower, of a fine rosy purple, a free and continuous bloomer	0 50
*Louis Van Houtte. Double white, rose azure stamens—a beautiful flower	0 50
Mrs. Baker. White, with dark carmine ribbon, a large and beautiful flower, free bloomer	0 50
Mrs. Jas. Bateman. A very large lavender blue	0 40
Mad. Granger. Flowers large purple violet with maroon midrib, redder than any other Clematis	0 50
Mad. Van Houtte. A splendid variety; white suffused with a bluish mauve colored tint	0 50
Marie Lefebvre. Flowers from six to seven inches in diameter, delicate violet white, with purplish lilac band in the centre of each petal	0 50
Magnifica. Purple, shaded with crimson, very large and fine	0 50
*Otto Frobel. This variety is remarkable for vigor and the flower is of immense size and perfect in form, the sepals being sufficiently broad to be well imbricated. The color French white	0 75
Princess of Wales Large flowers of a deep rich violet purple, with red bars down the centre of each petal; a beautiful variety	0 40
Rubella. Flowers of a rich velvety claret, the deepest color of any Clematis, generally has six petals to each flower	0 50
Rubra Violacea. Rich velvety claret	0 50
Symeiana. Delicate shade of pale mauve or lavender blue; a striking variety	0 50
Star of India. Flowers from four to five inches in diameter; color rich violet purple, with a rosy purple band in the centre of each petal	0 40

Each.

Thomas Tenant. White, with pale rose changing to ivory white, very handsome..... $0 50
Thomas Moore. Deep rich violet tinted puce, a very large flower, occasionally nine inches in diameter..... 0 50
Tunbridgensis. Flowers four to six inches in diameter, dark blue, and ribbed on the centre of each petal with purple..... 0 50
Velutina Purpurea. Very profuse bloomer, color blackish mulberry..... 0 50
Victoria. A distinct and handsome variety, flowers large, composed of five and six petals well formed, color deep reddish mauve..... 0 50
Viticella Venosa. A reddish purple, reticulated with white..... 0 50
*Viticella Alba, (new.) Free grower and profuse bloomer, color pure white..... 1 00
*Viticella Rubra Grandiflora, (new.) A vigorous free growing variety, flowers profusely, color a violet red..... 0 75

Twelve very fine, my selection, $4.00.

NEW CLEMATIS. (*Class 1.*)

*André Leroy. An immense flower of the finest form, color rich violet, with a metallic hue; a grand flower..... 0 50
*Blue Gem. Flowers very large of a rich blue, shaded with mauve..... 1 50
*Fairy Queen. Flowers very large, occasionally measuring nine inches across; color pale flesh, with a pink bar in the centre of each sepal, shaded purple at the base.... 0 50
*Duke of Norfolk. A large beautiful flower, having 8 sepals of a rich mauve..... 0 75
*Devoniensis. Flowers large, delicate azure blue, very free bloomer, extra..... 0 75
*Duchess of Teck. Flowers pure white, six-sepaled, with a faint, delicate mauve bar down the centre when first opened..... 0 50

Flamme de punch. Large rose, flaked with punch flame and adorned with pure white hieroglyphs.

30 cts. each ; $3.00 per doz.

GLOXINIAS.—(Class 1.)

The varieties of this genus are all very handsome, producing abundance of magnificent flowers of a most beautiful description. The tubers should be potted in February or March. Place in a little heat to start them into growth ; water sparingly till the plants are well

established. When in bloom bring them into the conservatory or drawing room. After the plants have done blooming dry gradually off, by withholding water from their roots; afterwards remove them to a warm, dry place.

The following are superlatively beautiful:

Those marked thus (*e*) have erect flowers.

(*e*) Duc Decazes. A splendid flower; white ground, beautifully maculated with lilac magenta.

(*e*) Cinderella. Pure white with pink band, most beautiful.

Ernst Banary. Dark lavender, mottled with white, a beautiful flower.

Henry Husson. White, with a lavender lip, a large showy flower, beautiful.

(*e*) Boule de Neige. Pure snowy white, fine form, an abundant bloomer.

Duchess of Teck. Large drooping flowers of a rich magenta, shaded with maroon; the ground color is lighter at the edges of the lobes.

Excelsior. Horizontal, with lower side lobes of corolla enlarged; deep glowing crimson, a very robust free flowering variety.

(*e*) Lisere D'Argent. Intensely bright crimson scarlet, distinctly margined with pure white; light throat beautifully spotted and freckled with carmine.

Madame Hatti. Fine scarlet flower, throat deep red shaded with purple, slightly blotched with white, margin rosy scarlet.

*(*e*) Matador. Very dark reddish crimson, neatly bordered with white; very rich and showy.

Scarlet Gem. Crimson scarlet, extra fine.

Miss Hannah de Rothschild. Large white, tinted with purple; throat purple shaded mauve, lower part creamy white.

(*e*) Mrs. Haines. Splendid erect flower, throat purplish violet, bordered with vermilion scarlet, with deep margin of rose color.

Prince Arthur. A large deep purple flower, the two upper lobes and margin light purple.

Prince Leopold. Throat purplish violet, scarlet margin shaded with pink.

The Hon. Mrs. York. Creamy white throat, bordered with mauve, with a margin of rich pink.

Mogul. Tube dotted with red, purple crimson limb, very clear at the border.

(*e*) Princess Royal. Tube and edges white, throat mottled with dark blue, fine.

Theresa Saul. White, with crimson lips, fine.

Quadricolor. Rose, flaked with white, supercochineal spots; throat lilac.

Sauvis. Color white, with millions of tender rose colored dots.

Byron. White ground, the margin of the limb is amaranth festooned with purple.

(*e*) Gœthe. Erect flower, vermilion rose with almost black throat and white bottom.

Schiller. Erect flower, fiery cherry sprinkled with violet, very large flower.

Price 25 cts. each; $2.50 per dozen.

*NEW GLOXINIAS.—(*Class 2.*)

Agnes M. Saul, (Saul.) Light crimson scarlet, fine large flower, very fine.

Artevelde. Flowers enormous, velvety violet, edge of the throat blackish purple.

(*e*) Ami Thibaut. Creamy white covered with spots all over, feigning frosty arabesques.

Alphonse Karr. Throat yellow, limb rich cochineal.

Bradamante. Very large flower, pure white tube, light rose lobes bordered with rich rose and blotched with white.

B. S. Williams. Flowers very squat, very intense fiery vermilion.

Magician. A very fine bronze Zonale, with semi-double scarlet orange flowers. 35 cts.
Sappho. Fine bronze zone, with double flowers. 40 cts.

VARIETIES OF VARIEGATED GERANIUMS.

Each.

Freak of Nature. Very unique and attractive. Outside of leaves light green, with a large pure white centre; flowers light scarlet; habit very dwarf and spreading. It is undoubtedly far before any other of its class, and the greatest novelty in foliage that has been sent out for years..... $0 50
Mad. Salleroi. "Entirely distinct, with leaves from one to two inches in diameter, the centre of each is of deep olive-green with broad margins of pure white; growing in dense round masses, it is not affected in the slightest by exposure to the direct sunlight."..... 0 35
Happy Thought. Instead of the usual yellow outer belt or margin, in this instance the color forms a large conspicuous cream yellow blotch in the centre or disc of the leaf. The flower is a rich magenta rose, tinted with scarlet..... 0 15

GOLDEN TRICOLOR GERANIUMS.

Price 20 cts. each, $2 per dozen, (save where priced.)

Bed of Gold or Artemus Ward. The yellow is very bright, with a blotched green zone.

Seedlings raised from the finest collection, mixed. Price 20 cents each, $1.50 per dozen.

MISCELLANEOUS DAHLIAS.

Ready in April.

	Each.
Juarezi, (Cactus Dahlia.) Dazzling scarlet, long petals curiously twisted at the points; they are as brilliant as those of a Poinsettia, and resemble somewhat the flowers of a Cactus; a grand bedding Dahlia	$0 40
Maximilian. A very large growing species from Mexico. Flowers during winter in a warm green-house. Flowers semi-double, purplish lilac	0 40
Zimæpani, Black Dahlia, (Bidens Atrosanguinea.) A very interesting species, admirably adapted for massing, and for the decoration of the border. It is of a neat compact habit, very free flowering, and invaluable for cutting purposes, as the flowers are small. It is of a deep rich crimson, almost black. This can be treated the same as all other Dahlias, and is quite as easily grown	0 50
*Double Floret Dahlia. Double of a ruby red color. It is peculiar in the filling up of the florets, which instead of being in the nature of tubes or cups are occupied with quills, or as we may term them, replica florets; a very interesting plant	1 00

LARGE FLOWERED CHRYSANTHEMUMS.

Princess Charlotte. Deep rose, with dark amaranth blotch.
Princess Louise. Shining tender rose, festooned with pure white, large carmine spot. Magnificent.

President Van den Hecke. Pure white, striped with rose, double.
Queen of Scarlets. Brilliant scarlet, marked with rich crimson spots on a violet ground.
Queen of Roses. Rose color, with broad rounded flower lobes, upper lobes relieved by a cloud of small crimson specks.
Queen of Double Stripes. A beautiful double white flower, occasionally coming elegantly tipped and streaked with rose.
Queen of Double Whites. Flowers large, double, of the purest white.
Queen of Whites. Finely formed, of the purest white.
Roi de Beautés. Light salmony rose, suffused with violet, edged with white, double.
Reine des Roses. Deep clear rose, red spots, large and attractive.
Senator Kestler. Rosy crimson, very fine shape.
Splendidissima. White ground, striped with carmine.
Souvenir du Prince Albert. Large double flowers, lobes broad, half white and half rose, edges pure white.
Stella. Bright scarlet, deep violet stain on upper petal.
Virgin Queen. Pure white, fine form.
Vittata Crispiflora. White, striped with purple and crimson.
Virginalis. Pure white, edge of flower frilled.
Vivid. A fine rich scarlet, beautiful.
*Empress of India, (new.) A very beautiful variety, flowers 4 inches in diameter, salmon rose, flamed with white and dark carmine, a first-class variety.
*Jean Vervaene, (new.) Rosy salmon, spotted with deep crimson, edged with white. A first-class variety.
*Louisa Pynaert, (new.) White, striped with violet, semi-double, extra fine.
*La Pucella de Gand, (new.) Pure white, very large and finely formed, a beautiful flower.
*Mad. Vandercruyssen, (new.) Color bright clear rose, of good form, semi-double.
*Mad. Jean Nuytens Verschaffelt, (new.) White relieved with a yellowish spot, a fine large flower of good form and substance.

The six last named are quite new. The price for small plants is 50 cents each. The set of six for $2.50. The larger plants cannot be sent by mail.

AZALEA AMŒNA AND VARIETIES.

The varieties of A. Amœna bloom early and are very desirable for greenhouse culture, or forcing. They are hardy in this latitude.

Amœna. Bright rosy purple, flowers small, hose-in-hose fashion, abundant bloomer, a very distinct and pleasing species, quite hardy. 25 cts. to 50 cts.
*Mrs. Carmichael. A hybrid between Amœna and Stella; color a rich magenta shaded with crimson, the upper segments spotted with marginal black. 50 cts.
*Obtusa. A beautiful variety of Amœna from Japan, with orange scarlet flowers. 50 cts.
*Caldwelli. A very beautiful variety of Amœna; flowers red.
*Princess Beatrice. Quite a distinct flower, color light mauve, slightly spotted in the upper petal segment, flowers round and of good shape. Sometimes produces double flowers. 50 cts.
*Wm. Carmichael. A charming variety, rich carmine shaded with magenta, the upper segment beautifully spotted, flowers round and of good substance. 50 cts.

CAMELLIAS.

Of this beautiful class of plants, we grow a very choice selection.
Price 50 cts. to $1 each and upwards, according to size.

BEGONIAS.

Varieties of dwarf growth, cultivated chiefly for their beautiful foliage.
Price 20 cts. each, $2.00 per dozen, (save where priced.)

*E. André. A very beautifully marked foliage. 30 cts.
*Marguerite Bruant. Very distinct foliage. 30 cts.
*W. E. Gumbleton. A beautiful hybrid between *Rex* and *Discolor*. 30 cts.
The above are three remarkably beautiful hybrids between Rex and Evansiana.
Alexander Von Humboldt. Fine foliage.
Begonia Metallica. Veins of a dark metallic hue.
Bettine Rothschild.
Gem. Fine.
Grace Fahnestock. Neat foliage.
Louis Schwatzer. Beautifully marked foliage in the style of *Rex*.

J. L. de Boucher.
Louis Chretien. A new and very distinct variety of the Rex class.
Marshalii.
Mons. Victor Lemoine. Marbled like lace.
Mrs H. Low.
Negro. Very dark foliage.
Philadelphia. Fine,
Queen of England.
Otto Forster. A hybrid between *B. Imperialis* and *B. Rex.* Its large foliage is of a rich bronzy green, with shining silvery white veining. 50 cts.
Rex.
Robt. Buist.
Roi Leopold.
Smaragdina. Green.
The O'Donohue.

The following species and varieties are of taller growth cultivated chiefly for their flowers.

Price 20 cts. each, $1.50 per dozen.

Argyrostigma Picta. Green spotted with white.
Coccinea, (Corallina.) A very beautiful species, a free bloomer, color a bright scarlet. 25 cts.
Evansiana. A beautiful species.
Foliosa. Drooping species, light pink flowers.
Fuchsioides alba. White flowered.
Gibsonii. This variety has double flowers.
Glaucophylla Scandens, (*Climbing Begonia.*) A beautiful climbing species, admirable for hanging baskets; free grower and profuse bloomer. 25 cts.
Hybrida Multiflora. Scarlet.
Incarnata. Flowers pink.
Imperialis.
Insignis. Flowers rosy crimson. light centre.
Nigricans. Dark shining crimson foliage, flowers pink.
Nitida. Flowers pure white.
Odorata. Sweet scented.
Parnelli. Foliage light green, beautifully spotted with white.
Parviflora. Flowers white.
Palmata. Palmated.
Saundersonii. Scarlet.
Weltoniensis. Pretty waxy pink flowers.
Washingtoniana. A very fine winter bloomer, flowers pure white. 25 cts.

SELAGINELLAS, (*Lycopodium.*)

	Cts.
Caulescens	25
Cæsia. Surface like shot silk	20
Cæsia Aboreum, (Lævigata)	25
Cordifolia	20
Cuspidata, (pallescens and circinalis)	20
Denticulata. Dense habit	10 to 20
Denticulata Aurea. The tips of the shoots are tipped with yellow	10 to 20
Delicatissima, (Microphylla.) Exceedingly dwarf	10 to 20
Elongata, (Cordifolium	20
Lepidophylla. This is a beautiful neat species; very distinct from all others	50
Filicina	20
Martensii. Compact habit	10 to 20
Martensii Variegata. Tips of all the growth white	10 to 20
Paradoxa	20
Poulterii. Neat compact habit	20
Plumosa, (*Viticulosa*)	25 to 50

Triangulara	20
Wildenovii, (Pubescens.) More fern-like than the other species	25

FERNS.

Adiantum Gracellinum. A most elegant and distinct Fern, with very light and graceful fronds; the multiplicity of minute pinnules impart to the plant a peculiarly charming appearance; the fronds are about a foot long and nine inches across, are thin and fragile. 50 cents.

*Adiantum Hendersonii. A very distinct and elegant Maiden Hair Fern. The fronds attain a length of from 30 to 40 inches, and have a graceful arching habit. The mature fronds are a beautiful dark green, the young fronds a bronzy crimson. $1.00.

*Adiantum Veitchii. "An extremely ornamental Fern, attracting the eye by the symmetry of its growth. The young fronds are very beautiful, being of a fine red color, that of the mature fronds a pale green." $1.00 each.

Adiantum Amabile. A very elegant species, with fronds of a beautiful light green color, small and elegant in regard to the size and form, attaining the height of from 15 to 18 inches. 25 to 50 cts.

Adiantum Farleyense. The most magnificent variety of this handsome family; the fronds are of a size and form of *A. trapeziforme*, but pendant, and all the large pinnules are deeply fringed and crisped. 50 cts. to $1.00.

*Adiantum Cardiochlœna. A free growing and very beautiful Adiantum. 50 cts.

Adiantum Peruvianum. A magnificent species, rivalling the well-known *A. trapeziforme*, in the size of its pinnules, and surpassing it in the elegance of its large compound drooping fronds. 25 to 50 cts.

Adiantum Princeps. A very handsome and distinct *Adiantum* from New Granada, with long arching fronds; pinnules large and closely set upon the rachis; of a pleasing green. This plant will make a fine specimen for exhibition purposes. 75 cts.

Adiantum Sanctæ Catharinæ. The fronds are from one to two feet in height and decompound. It is a very grand plant and succeeds well in a warm greenhouse. 50 cts.

*Adiantum Seemanni. A noble species, producing fronds 2 feet long, with a comparatively slender glossy back stipe, bare at the lower part, and bearing, towards the top, from 4 to 8 magnificent large pinnæ. $1.00.

Asplenium Longissimum. A very useful basket Fern; its pendulous fronds are often from 5 to 7 feet long, and are produced in great abundance, so that the plant is well furnished at all seasons. 50 cts.

Davallia Mooreana. A most beautiful Fern. The fronds are from 2 to 3 feet long, and from 1 to 2 feet wide at the base, triangular and pointed, of a graceful arching habit of growth and most elegantly cut into a multitude of small blunt oblique segments; a pale green. 30 to 50 cts.

Davallia Tyermanni. One of the most beautiful of all the Hare's-foot Ferns, of dwarf compact habit, having rich dark green fronds. The rhizomes are slender, which contrast charmingly with the deep green of the fronds. 50 cts.

Davallia Dissecta. A handsome species, produces fronds from one to two feet in length; it is a splendid Fern for baskets and bouquets. 50 cts.

Polypodium Kurrudrianum.—(*From the Sandwich Islands.*) "Of a drooping habit, it first sends out a number of wooly fronds of a dark brown color. After the rope-looking fronds have attained to the length of from twelve to fifteen inches, they unroll and become a beautiful bright green, and continue to grow until they are from five to six feet long." 25 cts.

Pteris Serrulata Maxima Cristata, (new.) An exceedingly pretty Fern; the leaves are large and finely crested. 50 cts.

Nephrolepis Davallioides, Furcans, (new.) A beautiful and distinct crested variety of the Java Fern *Nephrolepis davallioides*. It is a noble Fern, of robust growth, sending forth, as from a central tuft, numerous arching fronds from three to four feet long. 25 to 50 cts.

	Each.
LOMARIA GIBBA	25 to 0 50
LOMARIA GIBBA CRISPA—*crisped leaved*	0 50
LOMARIA CILIATA	25 to 0 50

Dwarf tree ferns of great beauty which cannot be too highiy recommended to all lovers of this beautiful class of plants.

*Platycerium Alcicorne, (Elk's Horn Fern.) A very handsome and distinct evergreen Fern, succeeds well on block or basket. 50 cts. to $1.00.

*Platycerium Grande. A noble species, when grown on a block of wood makes a remarkable handsome specimen. $1.00 to $2.50.

Todea Fraserii.
Superba.
Todea pellucida.
Wilksiana.

There is no family of Ferns which approaches this in grace and beauty. For wardian cases, they are indispensable.

BROMELIADS.

*Bromelia macrantha.
*Encholiron Saundersii.
*Gusmania picta.
*Hechtia Ghiesbreghtii.
*Achmea Veitchii, (Chevalliera.)
*Tillandsia Musaica.
*Tillandsia Splendens (Zebrina.)
*Tillandsia Zahnii (Zebrina.) $2.
*Vriesia Brachystachya. A charming plant, foliage light green with cross bars of a dark green; flowers yellow and crimson, last three months in beauty. $2.00 each.
*Vriesia Glaucophylla.

*PALMS.

We are cultivating some of the most desirable and popular of these beautiful plants. The prices of these vary with height.

Each.

*Areca lutescens. This beautiful species is peculiarly adapted for general purposes of decoration. Leaves pinnate, bright shining green; petioles and stem yellow, curiously mottled with black.

* Rubra. An elegant plant for the decoration of apartments, or any situation where a graceful plant is required; the leaves are pinnate and arching, in a young state bright red changing with age to dark green.....50 cts. to 2 50

*Brahia glauca. A beautiful glaucus Palm from Lower California.....50 cts. to 1 00

*Carludovica palmata. A very ornamental plant with pinnate leaves two or three feet across; suitable for the flower garden during summer. Said to be the species from which the Panama hats are made.....75 cts. to 2 50

KENTIA.

*Carypha (Livistonea) Australis. A fan-leaved Palm of great beauty. Being of robust constitution, it withstands without injury a low temperature; it is well suited for the decoration of apartments. The fan-like leaves are dark green, supported upon brown petioles, which are armed at their edges with stout spines.....50 to 2 00

Each.

*Cocos Weddelliana. Perhaps the most elegant of all the smaller Palms, of which so many charming species are now to be found in cultivation. Its slender erect stem is not of rapid growth, but is freely furnished with its gracefully arching leaves, made up of innumerable long narrow pinnæ or segments of a rich green color ..... 50 cts. to 2 50

Plumosus. Another very beautiful species of tall, free growth 0 50

COCOS WEDDELLIANA.

*Chamœrops Excelsa. Leaves fan shaped, a cool greenhouse Palm, very valuable and useful for outdoors during the summer ..... 50 to 2 00

Humilis. Leaves fan shaped, glaucus .....

*Copernica Cerifera. An elegant Brazilian Palm, of very distinct character, amongst the palmatifid species. The plant is slender, with semiterete leaf-stalks, furnished with reflexed spines; the blades have numerous narrow segments; the leaf has a vase-shaped outline and palmate ..... $1 to 2 50

*Cycus Revoluta, (Sago Palm.) Produces a beautiful crown of pinnated dark green leaves ..... 50 to 2 00

*Jubea Spectabilis. Leaves pinnate, deep green, a fine Palm ..... 50 to 2 00

*Kentia Australis. Of exceedingly graceful habit, the leaves being pinnate, finely divided and elegantly arranged, and of a beautiful dark green ..... $1.50 to 2 50

*Belmoreana. This fine palm is a valuable addition to our collections; its leaves are pinnate, dark green and so beautifully crisp as to gain for it the name of the "Curly Palm." It is very elegant and graceful in habit ..... $1.50 to 2 50

Each.

*Kentia Canterburyana. This is a truly handsome species, with pinnate leaves and a very robust habit; it is called in its native country the "Umbrella Palm." It is an exceedingly ornamental plant and well adapted for decorative purposes..$1.50 to 2 50

*Fosteriana. In habit somewhat resembling the preceding species, but more robust in its habit of growth and thoroughly distinct; the leaves are broader in all their parts and darker in color..... 2 50

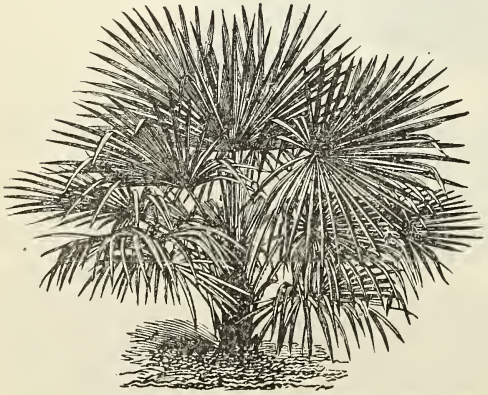
LATANIA BORBONICA.

MACROZAMIA.

*Latania Borbonica. Leaves large, fan shaped, with pendant marginal segments, bright green tint, one of the handsomest and most useful Palms in cultivation...50 to 2 50

*Macrozamia Denisoni, (Peroffskyana.) Long, graceful pinnated leaves, very beautiful Palm.....$1 to 2 50

*Spiralis. A grand Australian Cycad; the leaves are pinnate, the segments being linear; it is a remarkably fine and elegant plant, the leaves being composed of from 45 to 50 pairs of segments or pinnæ..... $1 to 2 50



CHAMŒROPS EXCELSA.

PRITCHARDIA FILAMENTOSA.

Each.

*Pinanga Kuhlii. A very beautiful Palm of low growth..... $1.50 to 2 50

*Phœnix dactylifera, (Date Palm.) Leaves long pinnate, dark green, a handsome plant..... $1 00 to 2 50

Dumosa. Dwarf habit..... 1 00

*Phœnix Reclinata. Leaves pinnate, exceedingly graceful, a fine greenhouse Palm, or for the flower garden during summer. Fine for decoration, being very graceful...50 to 2 00

*Pritchardia Filamentosa. This new Palm has been introduced from Lower California. It is of graceful habit and quick growth; the leaves are palmatifid with numerous divisions and whitish filaments, a beautiful Palm..... 25 to 1 50

Ptychosperma Alexandræ. An extremely handsome greenhouse Palm, destined to become one of the most elegant species for cool-house purposes and the decoration of the flower garden during summer. Leaves pinnate, beautifully arched, bright red in young state, changing with age to light green. Native of Australia..... 2 50

PHŒNIX RECLINATA.

*Seaforthia Elegans. This is a most graceful Palm, eminently adapted for the decoration of the greenhouse and garden. It also makes a fine window plant; leaves are very long and gracefully arched, dark green, the whole plant perfectly smooth; a grand decorative plant. (See last page of cover.)..... $1 50 to 2 50

*Sabal Adansonii, (Palmetto.) A pretty dwarf Palm..... 50 to 1 00

*Thrinax Argentea. A very beautiful dwarf Palm, leaves fan-shaped, very handsome, 1 00

*Elegans. A dwarf Palm, leaves fan-shaped, an exceedingly beautiful plant, 1 00

Zamia miguelii. It produces from the crown remarkably elegant fronds, which are erect and somewhat spirally twisted.....

Grandiflorum. A large flowered variety, with black spots..... 0 20
Incomparable. Brilliant red, spotted black..... 0 20
Maculatum. Brilliant red, large spotted..... 0 20
Humboldti, (Bloomerianum.) A fine California species—color rich orange yellow, with spots of deep blood red, grows five to six feet high. A beautiful species and quite hardy..... 0 50
Japonicum Brownii. Very large flowers of the purest white on the inside, purple on the outside..... 1 50
Eximium. Very large flowers of the purest white, a fine variety..... 0 25
Harrisii. A variety of Eximium, a profuse bloomer. The small bulbs will bloom freely..... 0 75
Longiflorum. Stem two feet high, flowers pure white..... 0 20
Longiflorum Floribundum. A very free blooming variety, admirable for forcing..... 0 75
Takesima. Vigorous grower and free bloomer of the purest white, like the last..... 0 30
Leichtlinii. Canary yellow, with crimson spots..... 1 00
Martagon Flora Alba, (Turk's Cap Lily.) A pure white Turk's Cap Lily, very beautiful..... 1 50
Pardilinum. A fine California Lily, four to five feet high, yellow centre, densely spotted with crimson, reflex of petals deep orange, very fine..... 0 25
Philadelphicum. Stem two to three feet high, color yellowish red, with purple dots.... 0 25
Pomponicum (Little Turk's Cap Lily) Rubrum. Stem two to three feet high, flowers vermilion red..... 0 40
Luteum. Flowers yellow..... 0 40
Purpureum. Purple..... 0 40
Parryii. Pure canary yellow, without spots, very fragrant..... 1 00
Pyrenaicum. Flowers yellow, spotted with black..... 0 50
Speciosum Rubrum Verum. Very fine, deep color, beautiful..... 1 00

Each.

Speciosum (or Lancifolium) Rubrum. Japan Lily, stem two to three feet high, color white, suffused with red, and dotted with bright crimson on inner surface, 0 25
Album. White flowers 0 40
Roseum. White, spotted with rose 0 25
Punctatum. White, delicately spotted with rose 0 50
Macranthum. A variety of Rubrum, flowers large and highly colored 0 60
Melpomme. This fine variety is richer in color than any of the varieties of Speciosum 0 75
Monstrosum Album. White, monstrous flowered 0 75
Roseum. Rose spotted, " 0 40
Rubrum. Crimson " " 0 40
Precox. Early flowering and distinct variety, flowers pure white 0 50
Superbum. Stem four to six feet high, orange spotted with purple, having a grand panicle of 20 to 40 flowers 0 15
Szovitsianum, (Colchicum or Monadelphum) Stem three to four feet, flowers bright citron yellow with black points, 2½ to 3½ inches long. fragrant and early blooming, 1 00
Testaceum (or Excelsum) Stem four to five feet high, flowers light yellow, fragrant, hardy, a fine Lily 0 50
Tenuifolium. Color vermilion scarlet 0 50
Thompsonianum. A very distinct species, flowers a fine rose color, bulbs small 0 50
Thunbergianum (or Elegans.) Stem about two feet high, flowers orange scarlet with black spots 0 25
Flora Pleno. Double 0 25
Biligulatum Yellow, spotted with black 0 25
Feukwam. New 0 25
Ja-Ehal. Light yellowish salmon, spotted black 0 25
Kikak. Nankin spotted dark purple 0 25
Kemi Gajo. Light yellow 0 25
Bi-color. Two colored 0 25
Tigrinum, (Tiger Lily.) Stem four feet high, flowers brilliant orange red, spotted with black, very showy 0 20
Flora Pleno. A double variety of the last, exceedingly beautiful and attractive 0 25
Splendens. A grand variety, grows four to five feet high, very robust in growth, with larger flowers, more brilliant and more heavily spotted than the species; magnificent 0 50
Venustum. Stem about two feet, flowers bright orange, slightly spotted 0 30
Washingtonianum, (Nevada Lily.) Stem 3 to 4 feet high, flowers white, tinged with reddish purple and lilac dots, fragrant. A grand native Lily 1 00

MISCELLANEOUS BULBOUS PLANTS.

*Agapanthus Umbellatus, (African Lily) Large truss of blue flowers, fine bedded out, 0 50
*Alba. White flowered 1 00
*Major. Large flowered 1 50
*Variegata. Variegated leaves 0 75
*Amaryllis Artemasia, (new.) Pure white, with large vermilion stripes, very large flowers, splendid variety 2 50
*Aspasie, (new.) White tinged with yellow, blazed red, edged with a darker yellow, perfect flower, very large and beautiful 3 00
*Atrosanguinea. Brilliant vermilion, deep rich glowing shade, generally produces two spikes of finely shaped flowers. A grand plant for winter forcing 0 50
*Aurore, (new), pure white, extra large flowers, with large garnet red stripes, slightly tinged with yellow on the borders. Very vigorous, producing generally two spikes of six flowers 2 50
*Clovis, (new), very fine transparent red, enormous, well opened and well formed flowers, with large pure white stripes on each petal, very fine 3 00
*Ciceron, amaranth red, with pure white stripes, flowers of perfect shape; a grand flower 3 00

*$10 Collection.

Embraces the collection of plants as in the $15 collection, from *Monthly Roses* to *Hydrangeas*, inclusive.

*$5 Collection.

Half the $10 collection.

---

*Plants Free by Mail.

We have for some years forwarded plants in large numbers by mail to the most distant parts of the Union, as Texas, Utah and Pacific Coast, with perfect success. All of which are properly labeled and carefully packed in boxes or oiled paper. The following plants will be sent by mail, prepaid, our selection, at the prices annexed, or any new plant can be forwarded in the same way. No order for less than one dollar will be filled. This rule is necessary as the mailing of one or two cheap plants will not compensate us, in the hurry of business, for the time and labor of packing, directing, pre-paying postage, etc.

Either of the following collections free by mail, for $1.00.

10 Achyranthus. Assorted.
10 Alternantheras. "
8 Antirrhinums. "
8 Aquilegias. "
10 Ageratums. "
8 Abutilons. "

6 Smilax.
16 Verbenas. All colors. Assorted.
6 Veronicas.
6 Violets. Blue, purple, white, &c. Assorted.
10 Bedding Plants, our selection.
25 Packets Flower Seeds.

We will send six of the above collections for $5.00. Fourteen for $10.00.

All plants suitable for mailing at Catalogue rates. Not less than one dollar's worth sent in one order.

CORDYLINE AUSTRALIS.

An Australian plant of much grace and beauty, with very long, narrow and graceful foliage, admirable for vases, single specimens on lawns, &c.

ARALIA SIEBOLDI.

A very handsome Evergreen, with large shining green leaves; a beautiful decorative plant for the greenhouse or parlor, nearly hardy, Price 25 to 50 cts. each.

HARRY KING--New Zonale.

This is certainly the most magnificent vivid Crimson Zonale ever yet sent out, and the above engraving conveys but a very inadequate idea of its immense trusses; color intense and brilliant scarlet, considerably darker and more glowing than *Jean Sisley*; large white eye, each pip of fine shape and of great substance, which causes every petal to reflex as soon as each bud expands, consequently each flower remains a longer time in perfection than any other Zonale; it also has the valuable property of keeping its centre well filled up. The color of this variety totally eclipses all other older kinds, and is unquestionably the most magnificent crimson scarlet Zonale ever sent out. 15 cents each.

CARPENTERIA CALIFORNICA.

This is an extremely rare shrub even in its native habitat. It is a handsome shrub, the flowers being large pure white, with yellow tipped stamens. The leaves are broadly lance shaped, of thick texture, with recurved margins; it grows from six feet to fifteen feet in height, and is very bushy. One of the most valuable shrubs which have been introduced for years. "A great acquisition."..... $1 00

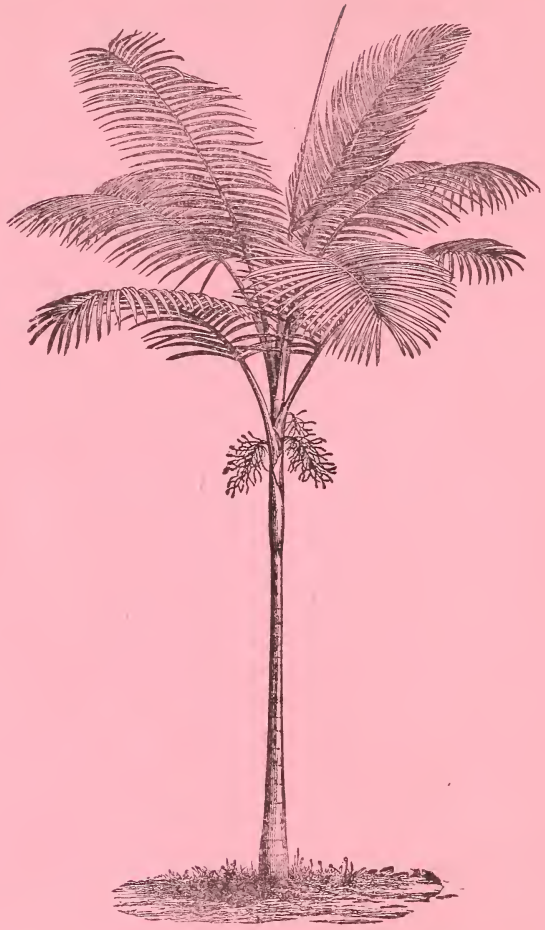
I have also been Awarded for several years, leading Premiums by the MARYLAND HORTICULTURAL SOCIETY *and* DISTRICT OF COLUMBIA HORTICULTURAL SOCIETY *for Dracænas, Crotons, Foliage Plants, Stove and Greenhouse Plants, Ferns, &c. In Cut Flowers, for Dahlias, Roses, Phloxes, Herbaceous Plants, &c.*

At the NATIONAL FAIR ASSOCIATION, WASHINGTON, D.C., *I have also been awarded the leading Premiums.*

SEAFORTHIA ELEGANS.



This is a most graceful Palm, eminently adapted for the decoration of the greenhouse and garden. It also makes a fine window plant; leaves are very long and gracefully arched, dark green, the whole plant perfectly smooth, a grand decorative plant.

Price per Plant, $1.50 to $2.50.
